themselves. In chapter nine he illuminates 23 major goals of the
Committee. Coleman also relates that a group in England called the
Tavistock Institute of Human Relations has arranged some, to me,
improbable social plans.

This work argues for the existence of a committee of 300, an elite body which controls every aspect of politics, religion, commerce and industry, answerable to no one except itself. It maintains that the confusion of social and moral values in the free world has been deliberately created.

Can you imagine an all powerful group, that knows no national boundaries, above the laws of all countries, one that controls every aspect of politics, religion, commerce and industry, banking, insurance, mining, the drug trade, the petroleum industry, a group

answerable to no one but its members? To the vast majority of us, such a group would appear to be beyond the realms of possibilities and capabilities of any given organization. If that is what you believe, then you are in the majority. The conception of a secret, elite group exercising control of every aspect of our lives is beyond our comprehension. Americans are prone to say, "It can't happen here, our Constitution forbids it." That there is such a body, called "The committee of 300," is graphically told in this book. When most people attempt to address our problems, they speak or write about "they"; this book tells precisely who "they" are, and what "They" have planned for our future, how "they" have been at war with the American nation for 50 years, a war which we are on the brink of losing, what methods "They" use and exactly how "they" have brainwashed us. If you are Puzzled and perplexed as to why things are occurring that we as a nation don't like yet seem powerless to prevent, why it is that the United States always seems to back the wrong horse, Why the united states is in a depression from which it will not emerge, why our former social and moral values have been turned aside and seemingly buried; if you are confused by the many conspiracy theories, the conSPirators' hierarchy: the committee of 300 will clearly establish that these conditions have been deliberately created to bring us to our knees. Once you have read the applying truths contained in this book, understanding past and present political, economic, social and religious events will no longer be a problem. This powerful account of the forces ranged against the United States, and indeed the entire free world, cannot be ignored.

This is a true and accurate account of treasonous conduct by the British and American governments: An account of how their citizens are deceived by policies provoking actions that are totally detrimental to the well-being of their citizens. Thoroughly

researched, the book provides a great deal of hitherto unpublished information and throws new light on such diverse operations as the Gulf War and the Bolshevik Revolution. The chapter on covert actions throws new light on the murder of Martin Luther King, Pope John Paul 1, and other notables marked for elimination. The bloodshed that resulted from the creation of an artificial "Saudi Arabia;" the foreign policy making role of the petroleum industry; the rape of Mexico by British and American oil barons; the revolutions they ignited which cost thousands upon thousands of lives; British conquest of India, the pernicious Indian "apartheid" caste system. These are some of the subjects dealt with in this historic expose of how our governments deceive us under the color of diplomacy. "Diplomacy By Deception" tells us that the United Nations is a war-making body, not a peace-keeping organization, and how the Rockefellers and Alger Hiss, aided by the top Illuminati Dulles family, got the United States involved with the United Nations. There is a masterly analysis of constitutional roadblocks barring U.S. membership of the United Nations that will come as a surprise and leave no doubt that we are not now, nor can we ever be, a member of the United Nations. "Diplomacy By Deception" will forever alter your perception of the two leading governments in Western civilization. This is an excellent companion book to the "Committee of 300" by the same author.

The real story behind the Tavistock Institute and its network, from a popular conspiracy expert The Tavistock Institute, in Sussex, England, describes itself as a nonprofit charity that applies social science to contemporary issues and problems. But this book posits that it is the world's center for mass brainwashing and social engineering activities. It grew from a somewhat crude beginning at Wellington House into a sophisticated organization that was to shape the destiny of the entire planet, and in the process, change the paradigm of modern society. In this eye-opening work, both the Tavistock network and the methods of brainwashing and

psychological warfare are uncovered. With connections to U.S. research institutes, think tanks, and the drug industry, the Tavistock has a large reach, and Tavistock Institute attempts to show that the conspiracy is real, who is behind it, what its final long term objectives are, and how we the people can stop them.

In a time of social and ecological crises, people everywhere are looking for solutions. States and capitalism, rather than providing them, only make matters worse. There's a growing sense that we'll have to fix this mess on our own. But how? *Deciding for Ourselves*, in the spirit of the Zapatistas, demonstrates that "the impossible is possible." A better world through self-determination and self-governance is not only achievable. It is already happening in urban and rural communities around the world—from Mexico to Rojava, Denmark to Greece—as an implicit or explicit replacement for nations, police, and other forms of hierarchical social control. This anthology explores this "sense of freedom in the air," as one piece puts it, by looking at contemporary examples of autonomous, directly democratic spaces and the real-world dilemmas they experience, all the while underscoring the egalitarian ways of life that are collectively generated in them.
