Based on an analysis of the most important polemics of the Investiture Contest, this book outlines the characteristics of the public sphere during the Contest and how these characteristics relate to the particular arguments used by the polemical writers.

Originally designed as a supplement to the Latin course by F. M. Wheelock, this book is well suited for use in any introductory or review course. All the stories in the book are based on actual Latin literature, with the stories simplified at first and made gradually more complex as the work progresses. Students will learn how classical Latin was really written as they become familiar with the works of the great Latin authors.
