decipher and evaluate media content, the assumptions on which that content is based, and the constraints to which it is subject. Electronic Media Criticism offers a variety of critical approaches to audio and video discourse. Rather than restricting itself to one perspective, the book applies key aesthetic, sociological, philosophical, psychological, structural, and economic principles to arrive at a comprehensive evaluation of both programming and advertising content. Maintaining the approach of the original volume, this second edition includes: \* updated chapters to reflect the

current media world, including sample reviews and illustrations, \* material pertaining to "new media"--because the book is process-oriented rather than medium-oriented, Internet referents are interspersed in discussion of the various critical perspectives, \* two additional scripts for critical analysis--an episode of The Simpsons and an installment of the dark Canadian comedy The Newsroom, and \* new exercises for further practice in applying critical procedures. Orlik interweaves the insights of industry and academic authorities, recognizing that both orientations are

essential in the development of a valid and viable critical outlook. Written for media students and practitioners, all readers of this volume will gain feasible and flexible tools for focused and rational analysis of electronic media products, as well as improved understanding of the role and essential ingredients of criticism itself.

How can a small winery possibly compete with the marketing of massive wine companies? How can it hope to capture the over-stimulated mindshare of the modern consumer? By being strategic. This revised and updated edition

Politics, Society, and the Media is the first comprehensive political sociology of the media to be published in Canada. Paul Nesbitt-Larking draws upon a range of disciplines, including cultural and media studies, political economy, social theory, and political science to provide an analysis of the relationship between power and representation in Canada. The framework for the book presents a model of the mutual interaction between politics and the media. Attention is focused in the early chapters on how cultural, ideological, economic, and

governmental forces shape and condition the production of media in Canada. Chapters on the work of Innis, Grant, McLuhan, and their postmodern successors place the evolution of McLuhan's theoretical argument that "the medium is the message" at the heart of the book. Canadian identity, and how to understand Canadian media politically, is the subject of a chapter on textual analysis. Two extensive chapters follow on the media's influence and effects on politics. In addition to standard topics on politics and the media, this new edition offers much more: an examination of the media on the politics

from a global, cross-cultural perspective. This third edition has been thoroughly updated to incorporate the latest research and developments, including the rise of Big Data, AI, and the Internet of Things. The book's case studies and pedagogical material have also been extensively revised and updated to include such watershed events as the Snowden revelations, #Gamergate, the Cambridge Analytica scandal, privacy policy developments, and the emerging Chinese Social Credit System. New sections include "Death Online," "Slow/Fair Technology", and material on sexbots. The "ethical toolkit" that

introduces prevailing ethical theories and their applications to the central issues of privacy, copyright, pornography and violence, and the ethics of cross-cultural communication online, has likewise been revised and expanded. Each topic and theory are interwoven throughout the volume with detailed sets of questions, additional resources, and suggestions for further research and writing. Together, these enable readers to foster careful reflection upon, writing about, and discussion of these issues and their possible resolutions. Retaining its student- and classroom-friendly approach,

Digital Media Ethics will continue to be the go-to textbook for anyone getting to grips with this important topic.

Interdisciplinary essays on the relationship between practice and theory in new media. Arguing that "first encounters" have already applied traditional theoretical and conceptual frameworks to digital media, the contributors to this book call for "second encounters," or a revisiting. Digital media are not only objects of analysis but also instruments for the development of innovative perspectives on both media and culture.

Drawing on insights from literary theory, semiotics, philosophy, aesthetics, ethics, media studies, sociology, and education, the contributors construct new positions from which to observe digital media in fresh and meaningful ways. Throughout they explore to what extent interpretation of and experimentation with digital media can inform theory. It also asks how our understanding of digital media can contribute to our understanding of social and cultural change. The book is organized in four sections: Education and Interdisciplinarity, Design and Aesthetics, Rhetoric and Interpretation, and

Social Theory and Ethics. The topics include the effects on reading of the multimodal and multisensory aspects of the digital environment, the impact of practice on the medium of theory, how digital media are dissolving the boundaries between leisure and work, and the impact of cyberspace on established ethical principles.
