## **ENGINEERING DRAWING - Bharat**

Diploma has total six semester, first two semester(first year) purely based on general engineering subjects such as Chemistry, Mathematics, Physics & Engineering drawing. And remaining semester have subjects related to specific course. Hence we cannot say that diploma engineering is same as the first year B.tech engineering.

This book provides a detailed study of geometrical drawing through simple and well-explained worked-out examples and

# Read PDF Engineering Drawing 1st Year Diploma Mechanical

exercises. This book is designed for students of first year Engineering Diploma course, irrespective of their branches of study. The book is divided into seven modules. Module A covers the fundamentals of manual drafting, lettering, freehand sketching and dimensioning of views. Module B describes two-dimensional drawings like geometrical constructions, conics, miscellaneous curves and scales. Three-dimensional drawings, such as projections of points, lines, plane lamina, geometrical solids and their different sections are well-explained in Module C. Module D deals with intersection of surfaces and their developments. Drawing of pictorial views is illustrated in Module E, which includes isometric projection, oblique projection and perspective projections. The fundamentals of machine drawing are

## Read PDF Engineering Drawing 1st Year Diploma Mechanical

covered in Module F. Finally, in Module G, the book introduces computer-aided drafting (CAD) to make the readers familiar with the state-of-the-art techniques of drafting. KEY FEATURES : Follows the International Standard Organization (ISO) code of practice for drawing. Includes a large number of dimensioned illustrations, worked-out examples, and Polytechnic questions and answers to explain the geometrical drawing process. Contains chapter-end exercises to help students develop their drawing skills.

Salient Features: Provided simple step by step explanations to motivate self study of the subject. Free hand sketching

# Read PDF Engineering Drawing 1st Year Diploma Mechanical

techniques are provided. Worksheets for free hand practice are provided. A new chapter on Computer Aided Design and Drawing (CADD) is added.

Engineering Drawing, 2e continues to cover all the fundamental topics of the field, while maintaining its unique focus on the logic behind each concept and method. Based on extensive market research and reviews of the first edition, this edition includes a new chapter on scales, the latest version of AutoCAD, and new pedagogy. The coverage of topics has been made more clear and concise through over 300 solved examples and exercises, with new problems added to help students work progressively through them. Combining technical accuracy with readable explanations,

# Read PDF Engineering Drawing 1st Year Diploma Mechanical

this book will be invaluable to both first-year undergraduate engineering students as well as those preparing for professional exams.

About the Book: Written by three distinguished authors with ample academic and teaching experience, this textbook, meant for diploma and degree students of Mechanical Engineering as well as those preparing for AMIE examination, incorporates the latest st

this book includes Geometrical Drawing & Computer Aided Drafting in First Angle Projection. Useful for the students of B.E./B.Tech for different Technological Universities of India. Covers all the topics of engineering drawing with simple

# Read PDF Engineering Drawing 1st Year Diploma Mechanical

explanation.

This book was designed to help students acquire requisite knowledge and practical skills in technical drawing presentation and practices. The contents were scripted to prepare students for technical, diploma and degree examinations in engineering technology, technical vocations and draughtsmanship in other professions in the monotronics, polytechnics and universities. At the end of each chapter are lists of examination standard exercises that

# Read PDF Engineering Drawing 1st Year Diploma Mechanical

will help students perfect their skill and proficiency in technical drawing works. Therefore, student should be able to;

- Understand the principles and techniques of drawing presentation and projections in geometry
- Understand the applications of solid geometry
- Understand the principles and application of free hand sketching
- Understand the principles of constructing conic-sections and development of surfaces
