About the Book: This book Engineering Mathematics-II is designed as a self-contained, comprehensive classroom text for the second semester B.E. Classes of Visveswaraiah Technological University as per the Revised new Syllabus. The topics included are Differential Calculus, Integral Calculus and Vector Integration, Differential Equations and Laplace Transforms. The book is written in a simple way and is accompanied with explanatory figures. All this make the students enjoy the subject while they learn. Inclusion of selected exercises and problems make the book educational in nature. It shou.

Engineering Mathematics - II is designed as per the latest MAKAUT syllabus for first year second semester engineering students for all streams except CSE & IT. This book seeks to build fundamental concepts as well as help students in their semester examination. Each topic of the book is lucidly explained and illustrated with a wide variety of examples. It provides crisp but complete coverage of topics which will help students in their higher semester examinations. Salient Features: □ Written according to the latest syllabus of MAKAUT. □ Excellent coverage of Multiple Integral, Complex Analysis, Differential Equations. □ Step-by-Step approach illustrated with examples and diagrams. □ Solved university questions in each chapter. □ Solution of 2019 MAKAUT question Paper. □ Rich pedagogy: 296 Solved Problems, 88 Multiple Choice Questions and 225 Exercise problems.

Engineering Mathematics II: For UPTU is designed as per the specific requirements of the first-semester paper offered in the B.E./B.Tech syllabus of Uttar Pradesh Technical University (UPTU). With an emphasis on problem-solving techniques, engineering applications, as well as detailed explanations of the mathematical concepts, this book will give the students a complete grasp of the mathematical skills that are needed by engineers. The focus on practice rather than theory ensures complete mastery over the topics covered in the semester.

This book is designed to build up a strong foundation for the new students entering in Engineering field. It is strictly as per the revised syllabus prescribed by AICTE model curriculum. It has been written to fulfil all the requirements of B.E/B.Tech second semester students (All Branches of Engineering) of Chhattisgarh Swami Vivekanand Technical University, Bilai. The essential feature of this book is that apart from theoretical background, it provides sufficient number of solved examples with detailed steps in easy and simple language along with problems for practice. Suitable figures have also been incorporated to ensure an easy understanding of the concepts. Short and very short answer type questions are also included. We hope that this book will be of great use for which it has been designed
