Ideal for native speakers and learners alike, this clear guide to the grammar of modern English will help students speak and write English with greater confidence.

An Introduction to English Grammar provides a comprehensive overview of all aspects of English grammar. The first part of the book ('The Grammar') provides a step-by-step introduction to the key topics in English grammar. The second part ('The Applications') shows how a grasp of these topics can be helpful in resolving usage problems, in developing a clear writing style, and in mastering punctuation and spelling. A whole chapter, 'English in Use', is devoted to illustrating the grammatical features of a wide range of modern text types, including emails, Facebook pages, and 'tweets'. It also looks at the special grammatical features of English in everyday conversation. Each chapter is followed by two sets of exercises. The first set can be used in self-study or in the classroom. The second set deals with more advanced topics, and can be used for classroom discussion or essay writing. This fourth edition has been fully revised and updated and includes: clearer descriptions and improved presentation new material on word structure and word formation new exercises, examples and extracts updated further reading Assuming no prior knowledge of English grammar, this book is ideal for beginning students on a one-semester course and provides everything a student needs on the theory and practice of English usage. A comprehensive Glossary of grammatical terms is included and a website provides invaluable additional exercises.

An Introduction to English grammar provides a comprehensive overview of all aspects of English grammar, and can be used in the classroom, for self-study, or as a reference book. The book is organised in two parts – on grammar and its applications – and provides everything a beginning student needs to get to grips with the theory and practice of English usage, including sections on style, punctuation and spelling. This third edition has been fully revised and updated to include an expanded section on English in Use, usage notes highlighting common errors, updated exercises, a glossary and a companion website with further graded exercises.

Ideal for native speakers and learners alike, this clear guide to the grammar of modern English will help students speak and write English with greater confidence. It covers both British and American usage." - publisher.

Looking for an easy-to-use guide to English grammar? This handy introduction covers all the basics of the subject, using a simple and straightforward style. Students will find the book's step-by-step approach easy to follow and be encouraged by its non-technical language. Requiring no prior knowledge of English grammar, the information is presented in small steps, with objective techniques to help readers apply concepts. With clear explanations and well chosen examples, the book gives students the tools to understand the mysteries of English grammar as well as the perfect foundation from which to move on to more advanced topics.

Presenting the linguistic basis for courses and projects on translation, contrastive linguistics, stylistics, reading and discourse studies, this book illustrates grammatical usage through authentic texts from a range of sources, both spoken and written. This new edition has been thoroughly rewritten and redesigned to include many new texts and examples of language in use. Key features include: chapters divided into modules of class-length materials; a wide variety of authentic texts and transcriptions to illustrate points of grammar and to contextualise structure; clear chapter and module summaries enabling efficient class preparation and student revision; exercises and topics for individual study; answer key for analytical exercises; comprehensive index; select biography; suggestions for further reading; and a companion website. This up-to-date descriptive grammar is a complete course for first degree and postgraduate students of English, and is particularly suited for those whose native language is not English.

American English Grammar introduces students to American English in detail, from parts of speech, phrases, and clauses to punctuation and explaining (and debunking) numerous "rules of correctness," integrating its discussion of Standard American grammar with thorough coverage of the past sixty years' worth of work on African American English and other ethnic and regional non-Standard varieties. The book's examples and exercises include 500 real-world sentences and longer texts, drawn from newspapers, film, song lyrics, and online media as well as from Mark Twain, Stephen King, academic texts, translations of the Bible, poetry, drama, children's literature, and transcribed conversation and TV and radio shows. Based on twenty years of classroom testing and revision, American English Grammar will serve as a classroom text or reference that teaches students how to think and talk not only about the mechanics of sentences but also about the deep and detailed soul and nuance of the most widely used language in human history.

A few years ago, a magazine sponsored a contest for the comment most likely to end a conversation. The winning entry? "I teach English grammar." Just throw that line out at a party; everyone around you will clam up or start saying "whom." Why does grammar make everyone so nervous? Probably because English teachers, for decades – no, for centuries – have been making a big deal out of grammar in classrooms, diagramming sentences and drilling the parts of speech, clauses, and verbals into students until they beg for mercy. Happily, you don't have to learn all those technical terms of English grammar – and you certainly don't have to diagram sentences – in order to speak and write correct English. So rest assured – English Grammar For Dummies will probably never make your English teacher's top-ten list of must-read books, because you won't have to diagram a single sentence. What you will discover are fun and easy strategies that can help you when you're faced with such grammatical dilemmas as the choice between "I" and "me," "had gone" and "went," and "who" and "whom." With English Grammar For Dummies, you won't have to memorize a long list of meaningless rules (well, maybe a couple in the punctuation chapter!), because when you understand the reason for a particular word choice, you'll pick the correct word automatically. English Grammar For Dummies covers many other topics as well, such as the following: Verbs, adjectives, and adverbs – oh my! Preposition propositions and pronoun pronouncements Punctuation: The slowdown on periods, commas, colons, and all those other squiggly marks Possession: It's nine-tenths of grammatical law Avoiding those double negative vibes How to spice up really boring sentences (like this one) Top Ten lists on improving your proofreading skills and ways to learn better grammar Just think how improving your speaking and writing skills will help you in everyday situations, such as writing a paper for school, giving a presentation to your company's big wigs, or communicating effectively with your family. You will not only gain the confidence in knowing you're speaking or writing well, but you'll also make a good impression on those around you!

This grammar has been written to help the student to think in the Japanese way. Part One contains several introductory notes on Nomenclature, Syntax, Verbs, Aru, Iru, Oru, on Adjectives and on Foreign Words. Part Two concentrates on connectives – the particles and suffixes which modify the sense of other words or show the relationship of these words to each other. These connectives, the heart of Japanese grammar, present unusual difficulty to foreign students. Arranged alphabetically in dictionary form, each word is followed by a textual explanation of how it is used and of its various meanings, with cautions as to its translation. The forms covered include not only those of the "standard" colloquial literary or bungo styles, but also the more common colloquialisms and provincial forms, whether or not these are strictly grammatical. No other text available makes as through or as complete a classification.
