A groundbreaking look
at marriage, one of the
most basic and universal

Read Online Environmental

of all human institutions, which reveals the emotional, physical, economic, and sexual benefits that marriage brings to individuals and society as a whole. The Case for Marriage is a critically important intervention in the national debate about the future of family. Based on the authoritative research of

Read Online Environmental

family sociologist Linda J. Waite, journalist Maggie Gallagher, and a number of other scholars, this book 's findings dramatically contradict the anti-marriage myths that have become the common sense of most Americans. Today a broad consensus holds that marriage is a bad deal for women, that

Read Online Environmental

Engineering
Gerard Kieley

divorce is better for children when parents are unhappy, and that marriage is essentially a private choice, not a public institution. Waite and Gallagher flatly contradict these assumptions, arguing instead that by a broad range of indices, marriage is actually better for you than being single or
