Brand style guides for 10 brand websites we love

Style guide resources ¶ . Style guides have been around for as long as people have been publishing in any format. Older style guides originally intended for specific forms of print publication have become basic standards for many others to refer to, including documentarians:

Style Guides — Write the Docs

Note: All citations should be double spaced and have a hanging indent in a Reference List. A "hanging indent" means that each subsequent line after the first line of your citation should be indented by 0.5 inches. Below is a link to an APA sample paper that contains instructions about how to format a hanging indent in a paper.

Websites - APA Style (6th Edition) Citation Guide ...

Create clear sections and headings. Decide what sections you think your style guide needs. Write clear headings for each of these sections, and establish a well-thought-out order for the sections. For instance, you may want sections on common mistakes, your organization's stylistic choices, tone, formatting, and preferred words and acronyms.

How to Write a Style Guide (with Pictures) - wikiHow

This book demonstrates the step-by-step process involved in designing a Web site. Readers are assumed to be familiar with whatever Web publishing tool they are using. The guide gives few technical details but instead focuses on the usability, layout, and attractiveness of a Web site, with the goal being to make it as popular with the intended audience as possible. Considerations such as graphics, typography, and multimedia enhancements are discussed.

As quality becomes ever more critical in differentiating successful websites, the need for a professional approach to your content is growing. The Web Content Style Guide provides a set of standards and rules to ensure consistent quality content and a flawless service to your readers.

A classic reference book on user interface design and graphic design for web sites, updated to reflect a rapidly changing market. Consistently praised as the best volume on classic elements of web site design, Web Style Guide has sold many thousands of copies and has been published around the world. This new revised edition confirms Web Style Guide as the go-to authority in a rapidly changing market. As web designers move from building sites from scratch to using content management and aggregation tools, the book's focus shifts away from code samples and toward best practices, especially those involving mobile experience, social media, and accessibility. An ideal reference for web site designers in corporations, government, nonprofit organizations, and academic institutions, the book explains established design principles and covers all aspects of web design--from planning to production to maintenance. The guide also shows how these principles apply in web design projects whose primary concerns are information design, interface design, and efficient search and navigation.

WWW may be an acronym for the World Wide Web, but no one could fault you for thinking it stands for wild, wild West. The rapid growth of the Web has meant having to rely on style guides intended for print publishing, but these guides do not address the new challenges of communicating online. Enter The Yahoo! Style Guide. From Yahoo!, a leader in online content and one of the most visited Internet destinations in the world, comes the definitive reference on the essential elements of Web style for writers, editors, bloggers, and students. With topics that range from the basics of grammar and punctuation to Web-specific ways to improve your writing, this comprehensive resource will help you: - Shape your text for online reading - Construct clear and compelling copy - Write eye-catching and effective headings - Develop your site's unique voice - Streamline text for mobile users - Optimize webpages to boost your chances of appearing in search results - Create better blogs and newsletters - Learn easy fixes for your writing mistakes - Write clear user-interface text This essential sourcebook—based on internal editorial practices that have helped Yahoo! writers and editors for the last fifteen years—is now at your fingertips.

Maximize the impact and precision of your message! Now in its fourth edition, the Microsoft Manual of Style provides essential guidance to content creators, journalists, technical writers, editors, and everyone else who writes about computer technology. Direct from the Editorial Style Board at Microsoft—you get a comprehensive glossary of both general technology terms and those specific to Microsoft; clear, concise usage and style guidelines with helpful examples and alternatives; guidance on grammar, tone, and voice; and best practices for

writing content for the web, optimizing for accessibility, and communicating to a worldwide audience. Fully updated and optimized for ease of use, the Microsoft Manual of Style is designed to help you communicate clearly, consistently, and accurately about technical topics—across a range of audiences and media.

New diversity style guide helps journalists write with authority and accuracy about a complex, multicultural world A companion to the online resource of the same name, The Diversity Style Guide raises the consciousness of journalists who strive to be accurate. Based on studies, news reports and style guides, as well as interviews with more than 50 journalists and experts, it offers the best, most up-to-date advice on writing about underrepresented and often misrepresented groups. Addressing such thorny questions as whether the words Black and White should be capitalized when referring to race and which pronouns to use for people who don't identify as male or female, the book helps readers navigate the minefield of names, terms, labels and colloquialisms that come with living in a diverse society. The Diversity Style Guide comes in two parts. Part One offers enlightening chapters on Why is Diversity So Important; Implicit Bias; Black Americans; Native People; Hispanics and Latinos; Asian Americans and Pacific Islanders; Arab Americans and Muslim Americans; Immigrants and Immigration; Gender Identity and Sexual Orientation; People with Disabilities; Gender Equality in the News Media; Mental Illness, Substance Abuse and Suicide; and Diversity and Inclusion in a Changing Industry. Part Two includes Diversity and Inclusion Activities and an A-Z Guide with more than 500 terms. This guide: Helps journalists, journalism students, and other media writers better understand the context behind hot-button words so they can report with confidence and sensitivity Explores the subtle and not-so-subtle ways that certain words can alienate a source or infuriate a reader Provides writers with an understanding that diversity in journalism is about accuracy and truth, not "political correctness." Brings together guidance from more than 20 organizations and style guides into a single handy reference book The Diversity Style Guide is first and foremost a guide for journalists, but it is also an important resource for journalism and writing instructors, as well as other media professionals. In addition, it will appeal to those in other fields looking to make informed choices in their word usage and their personal interactions.

George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While 1984 and Animal Farm are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In Politics and the English Language, the second in the Orwell's Essays series, Orwell takes aim at the language used in politics, which, he says, 'is designed to make lies sound truthful and murder respectable, and to give an appearance of solidity to pure wind'. In an age where the language used in politics is constantly under the microscope, Orwell's Politics and the English Language is just as relevant today, and gives the reader a vital understanding of the tactics at play. 'A writer who can – and must – be rediscovered with every age.' — Irish Times

Provides information on manuscript preparation, punctuation, spelling, quotations, captions, tables, abbreviations, references, bibliographies, notes, and indexes, with sections on journals and electronic media.
