This major collection contains selected papers from the third Public Law Conference, an international conference hosted by the University of Melbourne in July 2018. The collection includes contributions by leading academics and senior judges from across the common law world, including Australia, Canada, New Zealand, the United Kingdom and the United States. The collection explores the frontiers of public law, examining cutting-edge issues at the intersection of public law and other fields. The collection addresses four principal frontiers: public law and international law; public law and indigenous peoples; public law and other domestic fields, specifically criminal law and private law; and public law and public administration. In common with the two books from the previous Public Law Conferences, this collection offers authoritative insights into the most important issues emerging in public law, and is essential reading for those working in the field.

In 1995, the International Committee of the Red Cross, along with a range of renowned experts, embarked upon a major international study into current state practice in humanitarian law in order to identify customary law in this area. This book (and its companion, Volume 1: Rules) is the result of that study. Volume 2 contains a summary of the relevant treaty law, international case-law and relevant state practice including legislation, military manuals, case-law, official statements, and official military practice for each aspect of humanitarian law. When injured soldiers returned from the First World War and needed to convalesce from severe injuries and trauma, a group of women were ready to help. Then known as "ward aides," these women – many of whom were artists or teachers – used simple craft activities to raise morale, build self-esteem, and teach skills.Restoring the Spiritilluminates the origins of occupational therapy in Canada and shows how the profession became an indispensable part of modern health care. Tracing the influence of popular political and social movements of the time, including the Mental Hygiene, Arts and Crafts, and Settlement House movements, Judith Friedland tells the stories of pioneering women in the field and describes how they established professional associations, workshops, and educational programs. She highlights the help they received from male physicians, which gave them access to those with decision-making power, and examines their work in both rural and urban environments with those from different economic and ethnic backgrounds. An informative look at the origins of a field that now has over thirteen thousand practitioners in Canada.Restoring the Spiritis also the compelling story of the rise of working women and their crucial contributions to the history of health care.

The New Practical Guide to Canadian Political Economy is a handy reference to the vast range of research and writing that political economists in Canada have completed to the date of publication. The book is divided into twenty-five subject bibliographies, each one compiled and introduced by an expert in the field. The overall range of subjects includes economic development in Canada, Canada's external economic relations, regional disparities and regional development, social and economic classes, women, Native peoples, politics and the Canadian state, nationalism, culture and political thought. The book is indexed by author, and includes a helpful shortlist of the "staples" in Canadian political economy. Published in 1985, The New Practical Guide to Canadian Political Economy remains a useful reference to some of the classic literature of the discipline.
