beneran..” “Biarin aja. Bagus malah!” Davi menggenggam kedua tangan Irish. Akhirnya Irish menerima permintaan Davi meskipun dengan setengah hati. Tapi setelah dijalani, Irish senang kok menjadi satu-satunya cewek yang paling dekat dengan Davi, walau cuma untuk sementara dan tanpa ada ikatan apa-apa. Irish emang nggak secantik Kristen Stewart. Dia cuma cewek biasa, yang di sekolah pun sama sekali nggak ngetop. Karena itu Davi merasa aman, soalnya dia merasa nggak bakalan naksir Irish. Tapi saat muncul cowok lain yang bikin Irish terpikat, kok Davi jadi nggak rela kehilangan Irish, ya?

This book examines how style and intersubjective meanings emerge through language use. It is innovative in theoretical scope and empirical focus. It brings together insights from discourse-

functional linguistics, stylistics, and conversation analysis to understand how language resources are used to enact stances in intersubjective space. While there are numerous studies devoted to youth language, the focus has been mainly on face-to-face interaction. Other types of youth interaction, particularly in mediated forms, have received little attention. This book draws on data from four different text types - conversation, e-forums, comics, and teen fiction - to highlight the multidirectional nature of style construction. Indonesia provides a rich context for the study of style and intersubjectivity among youth. In constructing style, Indonesian urban youth have been moving away from conventions which emphasized hierarchy and uniformity toward new ways of connecting in intersubjective space. This book analyzes how these new ways are realized in different text types. This book makes a

valuable addition to sociolinguistic literature on youth and language and an essential reading for those interested in Austronesian sociolinguistics.

This volume presents new research on the pragmatics of personal pronouns. Whereas personal pronouns used to have a reputation of poor substitutes for full NP's, recent research shows that personal pronouns are a fundamental, if not universal, category, whose pragmatics is central to their understanding. For instance, personal pronouns may indicate attentional continuity or social deixis, and take on genre-specific pragmatic effects. The authors of the present collection investigate such effects and analyse competing forms in context (e.g. she / her in subject position), as well as their pragmatic functions in an extensive range of genres such as advertising, TV

series, charity appeals, mother/child interaction or computer-mediated communication. Moreover, one section is devoted to the pragmatics of antecedentless pronouns and so-called ‘impersonal’ personal forms. The volume will be of interest to both scholars and students interested in the pragmatics of functional words.

Written by a wide range of highly regarded scholars and exciting junior ones, this book critiques and operationalizes contemporary thinking in the rapidly expanding field of linguistic anthropology. It does so using case studies of actual everyday language practices from an extremely understudied yet incredibly important area of the Global South: Indonesia. In doing so, it provides a rich set of studies that model and explain complex linguistic anthropological analysis in engaging and easily understood ways. As a book that is

both accessible for undergraduate students and enlightening for graduate students through to senior professors, this book problematizes a wide range of assumptions. The diversity of settings and methodologies used in this book surpass many recent collections that attempt to address issues surrounding contemporary processes of diversification given rapid ongoing social change. In focusing on the trees, so to speak, the collection as a whole also enables readers to see the forest. This approach provides a rare insight into relationships between everyday language practices, social change, and the ever-present and ongoing processes of nation-building.
