Corporate Governance is a comprehensive textbook specially designed to meet the requirements of postgraduate management students. It provides an in-depth analysis of the core concepts and supplements them with relevant examples, exhibits and case studies. The book begins with an exhaustive introductory chapter defining corporate governance and a director's role in a company. Further, divided into four parts, part 1 covers types of corporations, theories and models of governance. It also examines the events which have led to the current thrust of corporate governance addressing the Cadbury report in UK, Sarbanes-Oxley Act, 2002 in USA as well as the committees constituted by SEBI. Part 2 elaborates on the structure of the board and its development process. It also highlights the issues related to compensation, performance review of the Director as well as the importance of leveraging good governance for competitive advantage. Part 3 gives a broad view of governance related problems associated with typical ownership patterns, and capital market institutions from a stakeholder's perspective. The ground rules for a director to perform his responsibilities and duties are also discussed in this part. The book concludes with a chapter discussing the future of corporate governance in part 4. Owing to its comprehensive coverage and approach, students will find this book useful. It will also serve as a veritable guide for professionals owing to the inclusion of varied examples and case studies.

This booklet sets out referral guidelines that can be used by health professionals qualified to refer patients for imaging. It has evolved from the booklet 'Making the best use of a department of clinical radiology: guidelines for doctors' published by the Royal College of Radiologists in 1998 and can be adopted as a model for Member States. The EU Council Directive 1997/43/EURATOM declared that Member States shall promote the establishment and use of diagnostic reference levels for radiological examinations and guidance thereof. These referral guidelines can be used for that purpose.

"Gente" is the only truly task-based program that transports you, the learner, into an immersive environment. Learners interact with authentic language from the Hispanic world through a series of carefully-sequenced communicative activities culminating in a real-life task. "Tasks" are collaborative projects that integrate speaking, listening, reading and writing to complete them with the skills that are needed to communicate effectively in the real world! With "Gente," you learn by "doing," communicate with a purpose and emerge as an independent learner with the confidence to speak Spanish in a spontaneous, natural way.

This volume in the Content Review Plus Practice Series polishes your knowledge of pediatric nursing while sharpening your critical thinking and test-taking skills. Each chapter offers a concise, yet comprehensive review of the topic, followed by NCLEX-style questions in both multiple-choice and alternate-item formats. Rationales for both correct and incorrect answers, as well as test-taking tips, explain how to apply critical thinking to the question types—great preparation for classroom exams and the NCLEX-RN® Exam.

This handbook of paediatric gastroenterology, hepatology and nutrition provides a concise overview of key topics in these three closely related specialties.

FDCRS consists of 32 items, organized under six major headings: Space and Furnishings for Care and Learning -- Basic Care -- Language and Reasoning -- Learning Activities -- Social Development -- Adult Needs. Eight additional items are included for rating a day care home's provisions for special-needs children. Each book contains one score sheet. Packages of 30 score sheets can be ordered separately.
