APPROACH, 5/e, is an ideal user resource for courses that require the use of a graphing calculator. The quality and quantity of the exercises, combined with interesting applications and innovative resources, make teaching easier and help users succeed. Continuing the series' emphasis on user support, the Fifth Edition introduces Prerequisite Skills Review. For selected examples throughout the book, the Prerequisite Skills Review directs users to previous sections in the text to review concepts and skills needed to master the material at hand. In addition, prerequisite skills review exercises in Eduspace (see below for description) are referenced in every exercise set. The Larson team achieves accessibility through careful writing and design, including examples with detailed solutions that begin and end on the same page, which maximizes the readability of the text. Similarly, side-by-side solutions show algebraic, graphical,
