The shocking account of how a unit of average middle-aged Germans became the cold-blooded murderers of tens of thousands of Jews.

In the Pulitzer Prize-winning novel *The Amazing Adventures of Kavalier and Clay*, prose magician Michael Chabon conjured up the golden age of comic books -- intertwining history, legend, and storytelling verve. In *The Final Solution*, he has condensed his boundless vision to craft a short, suspenseful tale of compassion and wit that reimagines the classic nineteenth-century detective story. In deep retirement in the English country-side, an eighty-nine-year-old man, vaguely recollected by locals as a once-famous detective, is more concerned with his beekeeping than with his fellow man. Into his life wanders Linus Steinman, nine years old and mute, who has escaped from Nazi Germany with his sole companion: an African gray parrot. What is the meaning of the mysterious strings of German numbers the bird spews out -- a top-secret SS code? The keys to a series of Swiss bank accounts perhaps? Or something more sinister? Is the solution to this last case -- the real explanation of the mysterious boy and his parrot -- beyond

even the reach of the once-famed sleuth? Subtle revelations lead the reader to a wrenching resolution. This brilliant homage, which won the 2004 Aga Khan Prize for fiction, is the work of a master storyteller at the height of his powers.

The “extraordinary” true story of the St. Louis, a German ship that, in 1939, carried Jews away from Hamburg—and into an unimaginable ordeal (The New York Times). On May 13, 1939, the luxury liner St. Louis sailed from Hamburg, one of the last ships to leave Nazi Germany before World War II erupted. Aboard were 937 Jews—some had already been in concentration camps—who believed they had bought visas to enter Cuba. The voyage of the damned had begun. Before the St. Louis was halfway across the Atlantic, a power struggle ensued between the corrupt Cuban immigration minister who issued the visas and his superior, President Bru. The outcome: The refugees would not be allowed to land in Cuba. In America, the Brown Shirts were holding Nazi rallies in Madison Square Garden; anti-Semitic Father Coughlin had an audience of fifteen million. Back in Germany, plans were being laid to implement the final solution. And aboard the St. Louis, 937 refugees awaited the decision that would determine their fate. Gordon Thomas and Max Morgan Witts have re-created history in this meticulous reconstruction of the voyage of the St. Louis. Every word of their

account is true: the German High Command's ulterior motive in granting permission for the "mission of mercy;" the confrontations between the refugees and the German crewmen; the suicide attempts among the passengers; and the attitudes of those who might have averted the catastrophe, but didn't. In reviewing the work, the New York Times was unequivocal: "An extraordinary human document and a suspense story that is hard to put down. But it is more than that. It is a modern allegory, in which the SS St. Louis becomes a symbol of the SS Planet Earth. In this larger sense the book serves a greater purpose than mere drama."

The controversial journalistic analysis of the mentality that fostered the Holocaust, from the author of *The Origins of Totalitarianism* Sparking a flurry of heated debate, Hannah Arendt's authoritative and stunning report on the trial of German Nazi leader Adolf Eichmann first appeared as a series of articles in *The New Yorker* in 1963. This revised edition includes material that came to light after the trial, as well as Arendt's postscript directly addressing the controversy that arose over her account. A major journalistic triumph by an intellectual of singular influence, *Eichmann in Jerusalem* is as shocking as it is informative—an unflinching look at one of the most unsettling (and unsettled) issues of the twentieth century.

The classic history of Adolph Hitler's rise to power and his dramatic defeat

Before Metropolis In 1927 German filmmaker Fritz Lang brought to the screen one of the most ground-breaking sci-fi melodramas of all time based on the screenplay he co-wrote with his wife, novelist Thea von Harbou. Set in a futuristic urban dystopia, the story follows the attempts of Freder, the son of the city's ruler, and Maria, a citizen of the lower levels, to bridge the gulf separating the economic classes of the city. It is regarded as a classic and one of the first full-length movies in the genre. Five visionary new pulp writers have envisioned four dramatic tales which unfold in this amazing world prior to the events of that film. William Patrick Maynard & Michael Richard Maynard join forces with Michael Panush, Kevin Noel Olson and Erik Franklin to guide readers back to those vaulted, shining Towers of Metropolis in this new collection inspired by Lang's masterpiece.

In this acclaimed book, renowned Harvard scholar Susan Rubin Suleiman discusses individual and collective memories of World War II, as reflected in literary memoirs, autobiographical novels, works of history and philosophy, and films. Suleiman argues that memories of World War II transcend national boundaries, due not only to the global nature of the war but also to the increasingly global presence of the Holocaust as a site of collective memory. Among the works she discusses are Jean-Paul Sartre's essays on the Occupation and Resistance in France; Marcel Ophuls's innovative documentary on the Nazi interrogator Klaus Barbie, who was tried for crimes against humanity in 1987; István Szabó's film "Sunshine," a chronicle of Jewish identity in central Europe; literary memoirs by Jorge Semprun and Elie Wiesel; and experimental writing by child survivors of the Holocaust, Georges Perec and Raymond Federman.

This work offers insights into how specific films influenced the Americanization of the Holocaust and how the medium per se helped seed that event into the public consciousness. In addition to an in-depth study on films produced for both theatrical release and TV since 1937 - including *The Great Dictator*, *Cabaret*, *Julia*, and the mini-series *Holocaust* - this work provides an analysis of Schindler's List and the

debate over the merit of Spielberg's vision of the Holocaust. It also examines more thoroughly made-for-television movies, such as *Escape From Sobibor*, *Playing For Time*, and *War and Remembrance*. A special chapter on *The Diary of Anne Frank* discusses the evolution of that singularly European work into a universal symbol. Paying special attention to the tumultuous 1960s in America, it assesses the effect of the era on Holocaust films made during that time. It also discusses how these films helped integrate the Holocaust into the fabric of American society, transforming it into a metaphor for modern suffering. Finally, the work explores cinema in relation to the Americanization of the Jewish image.

Adolf Hitler (1889–1945) was the founder and leader of the Nazi Party and the most influential voice in the organization, implementation and execution of the Holocaust, the systematic extermination and ethnic cleansing of six million European Jews and millions of other non-aryans. Hitler was the Head of State, Supreme Commander of the Armed Forces and guiding spirit, or *fuhrer*, of Germany's Third Reich from 1933 to 1945.
