Nanoemulsions are produced by mixing an oil phase with an aqueous phase under shear pressure. This procedure yields uniform populations of oil droplets ranging in diameter from 200 to 8 nm that are kinetically stable colloidal substances with enhanced properties compared to the conventional emulsion

substances. Nanoemulsions have broad potential applications in agriculture, food, health, and biomedical sciences. The Handbook of Research on Nanoemulsion Applications in Agriculture, Food, Health, and Biomedical Sciences focuses on the aspects of nanoemulsion-like synthesis, characterization, and more and examines recent trends in their applications within a variety of relevant fields. Nanoemulsions have broad application in many different fields; without emulsification, process product development would not be possible. Covering topics such as cancer treatment, healthcare applications, and food manufacturing, this book is essential for scientists, doctors,

The India and the World: Shame and Uncertainty has mainly depicted issues like social, political, economic, poverty, illiteracy, lack of health facilities, insecurity, violence, corruption, indiscriminate armaments, environment pollution, hunger, etc., in India and the world nations, written in the last two and half years. Articles and essays have gone in details about what is happening in India and the globe. Exploitation of poor, downtrodden, and weaker sections of society have been

Read Book Final Year B Tech Agricultural

highlighted. Important features of the book are indifference of world nations toward burning issues in the respective countries and also issues of concern throughout the globe. Compassion, peace, and nonviolence have become nobodys concern in India and the globe, and these issues have been kept on the back burner! Notably one thing is very common in the world that is the rich are getting richer and the poor are getting poorer. Shamelessly shameful activities have taken the drivers seat. Everywhere in all the countries, uncertainties prevail it appears that these important issues have little or no priority among elite and political classes ruling the respective nations of the world. General

people are helpless and ruling elites are indifferent. Almost all nations are threatened with the so-called terrorism or militant fanaticism, which appear to have adopted militancy because of exploitation and hate campaign against them or their brothers and sisters or their nations in the world. World nations have made terrorism, extremism, and militancy into big hoaxes. Instead of finding solutions, world nations and their political rulers, as well as others, are blaming each other for these hoaxes. Last but not the least, the entire world nations and their people are in the grip of uncertainty and serious threat because of man-made miseries in destroying the environment. Because of unethical and

drainage system, etc. This book will assist in imparting better skills and understanding to Under Graduate (UG) and Post Graduate (PG) students, research scholars and professionals in the field of Agricultural Engineering.

The book covers different issues in agriculture. The author has pooled the knowledge of many experts and practitioners in the field of agriculture and allied sectors. The main Aims and Objectives covered in the book are: 1) Enhance Production and Productivity for food and nutritional security, 2) Improve profitability through agro-processing and value addition and 3) Sustainability through training, skill development,

Entrepreneurship and

communication. Stagnation in productivity, shrinking farm size, inadequate market infrastructure including warehousing and cold storage, and erosion of the foundations of sustainable agriculture such as soil and gene erosion, water logging, drop in ground water table and decline in surface irrigation are the areas that need urgent attention. There is need to pay attention to rural non-farm enterprises. All these issues in-depth have been covered under 40 chapters in the book. I am confident that the book would be of immense help to farmers, field officials, students and many others who directly or indirectly involved with agriculture and rural
