Wahlen/Baginski/Bradshaw is a balanced, flexible, and complete Financial Statement Analysis book that is written with the premise that students learn financial statement analysis most effectively by performing the analysis on actual companies. Students learn to integrate the concepts from economics, finance, business strategy, accounting, and other business disciplines through the integration of a unique six-step process. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

This must-have reference covers all of the major areas of cost accounting and analysis including product costing, relevant costs, cost-volume analysis, performance evaluation, transfer pricing, and capital budgeting. Includes methods of reorganizing, classifying, allocating, aggregating, and reporting actual costs and comparing them with standard costs. Equips experienced cost accountants with a reference tool and students with a thorough textbook. Provides numerous examples, succinct language, chapter review, glossary, and appendices. Includes an abundance of exercises, many of which are based on exam questions from the CPA and CMA exams.

The foundation; The firm and its operations; Working capital management; Investment policy; Financing decisions.
