students not only learn the content but also how to solve problems, reason, communicate their thinking, model, use tools, use precise language, and see structure and patterns. Throughout the book, you'll find tools, templates, and blackline masters so that you can instantly adapt the lesson to your specific needs and use it right away. With the easy-to-follow plans in this book, students can work more effectively in small guided math groups—and have loads of fun along the way!

Are you smarter than a fourth grader in Math?

# Read Online Fourth Grade Mathematics Contest

Just ask a fourth grader! This book is written by a fourth grader for fourth graders. Sofia Ivanka has passion for math that lead to a passion to help other fourth-graders with math. She wanted to create something simple and straightforward that could be a starting point for practical, everyday thinking for every kid. The problems reflect friends and food - what fourth graders like to think about. Kids, parents and teachers will delight in this practical and helpful approach to understanding math.
