With this fourth edition, accountants will acquire a practical set of tools and the confidence they need to use them effectively in making business decisions. It better reflects a more conceptual and decision-making approach to the material. The authors follow a "macro- to micro-" strategy by starting with a discussion of real financial statements first, rather than starting with the Accounting Cycle. The objective is to establish how a financial statement communicates the financing, investing, and operating activities of a business to users of accounting information. This motivates accountants by grounding the discussion in the real world, showing them the relevance of the topics covered to their careers.

To become a licensed Certified Public Accountant (CPA), you must first pass the Uniform CPA Examination. The CPA Exam consists of four, four-hour sections: Auditing and Attestation (AUD), Business Environment and Concepts (BEC), Financial Accounting and Reporting (FAR) and Regulation (REG). You must pass all four sections within 18 months, earning a minimum score of 75 on each part. Study the CPA Exam Blueprints to learn about the specific subject tested in each Exam section. Practice with the sample tests before your test day to learn about the Exam's format and functionality. Here we've brought best Exam practice questions for you so that you can prepare well for AICPA exam. Unlike other online simulation practice tests, you get an Ebook version that is easy to read & remember these questions. You can simply rely on these questions for successfully certifying this exam.
