Budgeting your personal finances. A great starter guide!

Budgeting for Local Governments and Communities is designed as the primary textbook for a quarter or semester-long course in public budgeting and finance in an MPA programme. Many currently available texts for this course suffer from a combination of defects that include a focus on federal and state budgeting, a lack of a theoretical governance framework, an omission of important topics, and typically a lack of exercises and datasets for student use. Budgeting for Local Governments and Communities solves all of these problems. The book is exceptionally comprehensive and well written, and represents the efforts of veteran authors with both teaching and real-world experience. Key Features: Special Focus on Local Government Budgeting: focuses exclusively on budgeting at the local levels of American government, which are responsible for spending 40 percent of the taxes collected from citizens. Integration of Theory and Practice: teaching cases and chapters capture the "lessons learned" by professional practitioners who have extensive experience in making local public budgeting work on the ground. Polity Approach to Local Budgeting: presents an introduction to local budgeting as the central political activity that integrates the resources of the community into a unified whole. Budgeting is presented as governance work, rather than as a unique set of skills possessed by analysts and financial specialists. Legal, Historical, Economic and Moral Foundations of Local Government Budgeting: provides readers with an understanding of how the structures and processes of local budgeting systems are firmly tethered to the underlying core values, legal principles and historical development of the larger American federal, state and local political systems. Electronic Datasets and Budgeting Exercises: the text includes access to extensive electronic datasets and practice exercises that provide abundant opportunities for students to "learn through doing." Extensive Glossary and Bibliography: covers terms on the history and practice of local public budgeting.

"The family elements in the story - the real struggles with marriage, raising a family, making a living, and just trying to enjoy life - have broadened the book's appeal to a wider audience, primarily women who are not into technology."DARK END OF SPECTRUM will make you think twice before turning on your cell phone or PDA!DARK END OF THE SPECTRUM is a frighteningly plausible and headline ripping tale of the real threats that loom in cyberspace and beyond with a Michael Crichton realism. Based on the author's years of research into the hacker culture.DARK END OF THE SPECTRUM is a thriller that will connect with everyone with a cell phone, PDA or wireless device.When a group of digital terrorists known as ICER take over the US power grid and the cell phone network, they give the government an ultimatum - bomb the borders of Afghanistan and Pakistan with nuclear weapons to put an end to Al-Quada or they will start downing commercial airliners. When the government refuses, ICER destroys most of the downed aircraft in airports all over the country. When ICER sends a pulse that will kill millions on the East Coast, only security expert Dan Riker can stop them, but ICER has kidnapped Dan's family.Will Dan save his family or will millions die?

Money is everything. Money makes the world go around and it very directly impacts you on a daily basis whether you have it or not and certainly influences the trajectory of your life. It is for these reasons we must learn to understand how to manage money better. Especially for millennials because our generation has the least assurances and the greatest competition when it comes to finding work, making good money, and being able to retire. In Money Management For Millennials I will show you how to better manage your money easily and effectively. James Sackey is an expert in finance who has spent over 10 years working in and learning about all aspects of finance ranging from high-finance in the corporate and business world to personal finance and investing. His philosophy and approach to money management is unique in that it is always direct, effective, simple, and unconventional by industry standards. He has written many articles on finance and investing which can be found on his blog BoardwalkAve.wordpress.com, LinkedIn, as well as Investing.com.

This is the story of how we bought our house in cash while living on one average income and growing a family. We're here to prove to you that with just a little determination and some serious budgeting, you, too, can live the mortgage-free life and own your own home within just a few years. In The House Cash Bought we've included our story along with our best tips for saving, how to cut spending on everything except the bare necessities, and our best advice for enjoying life without spending money. We hope that you will read this book and be inspired: We truly believe that if we can do this anybody can. You can skip paying interest on loans and never have to make a mortgage payment. You can own a real asset without going through stacks of paperwork, interest, approvals, and payments. We bought our house with cash and you can do it too.

The average American does not have enough money saved for their retirement nor do they have enough funds set aside for an emergency. My Money Matters is a 52-week money management workbook that combines a weekly budget sheet with weekly money management principles.The book builds on the Basic Money Management Principle that "I will not spend more than I earn."By teaching kids this lesson at an early age, they will under the value of a dollar as well as create habits of saving, setting goals and investing in their future. Each weekly lesson is easy to understand for children between the ages of seven and fifteen although parents are encouraged to spend at least one hour per week reviewing the past week's budget, studying the money principle and creating a budget for the upcoming week.My Money Matters workbooks are available for kids (receiving an allowance), teens/ young adults (working part time or living away from home) and adults. The weekly lessons focus on the same principle while providing age and situation specific examples for each group.These workbooks are perfect for families, groups and organizations.
