Unimaginative. Risk-adverse. Prone to group-think. These are not just empty complaints about today's employees. A recent article in Newsweek found solid data that proves a "creativity crisis" is plaguing America. Yet critical thinking, the ability to approach a problem both analytically and creatively, is the bedrock of success for companies and their people. Fortunately, it's a skill that can be learned. The Critical Thinking Tool Kit aims to get employees

on sharing available knowledge to combat the threat of invasive alien species. Turning the tide of biological invasion by eradicating invasive species can yield substantial benefits for biodiversity conservation. As more eradications are attempted worldwide, it is increasingly important that lessons are learned from each and every one of these attempts, whether successful or unsuccessful. This publication is intended to share with a wider audience the insights and practical experience gained.
