CLICK HERE to download the first chapter from Wilderness GPS * Simple, focused, and accessible, Wilderness GPS is for anyone using GPS in an outdoor setting * Trust us: first-timers need help to use their new backcountry GPS devices * From the authors of the bestselling Wilderness Navigation (65,000 copies sold) Thousands have learned compass and map skills with the help of father-and-son team Bob and Mike Burns and their straightforward, simply explained book, Wilderness Navigation. Now they ' ve written a book for everyone who has bought a backcountry GPS device and found it inexplicably complicated to use (which includes most of us). Wilderness GPS is an easy-to-use guide to get you navigating the outdoors with your handheld GPS device. Wondering how to choose from the variety of gear and computer programs, or how to use a GPS with your map and compass effectively? Wilderness GPS details this and more including: * How to select your GPS gear * Getting started and practice routines * Different coordinate systems: latitude and longitude vs. Universal transverse Mercator (UTM) * Routefinding in wilderness settings, including common scenarios * GPS vs. map and compass routefinding * Using GPS on water * Using your GPS with a home computer or mobile " smart " device Bob Burns and Mike Burns are the authors of Wilderness Navigation, a nationally bestselling primer that serves as the official textbook for navigation courses taught by The Mountaineers and other outdoor education centers. Together, they have decades of professional experience in teaching map and compass, GPS, and navigation in the outdoors and have hiked, scrambled, climbed, and snowshoed all over the West Coast and beyond. They both live in Seattle.

This manual is a complete user manual for Garmin handheld receivers. It covers theory and practical applications for gps technology and the receivers that use this technology. Representative products for all of the Garmin handheld receivers, past and present, are explained and tips are given on getting the most out of each model. It is designed to augment the user manuals that are supplied with each product but is complete enough to replace them. While this manual is Garmin specific it provides a basic understanding of gps devices that is applicable to any gps receiver. It was written over a period of 4 years and has been reviewed and tested by hundreds of users over that period. It has been used as the reference for training on gps usage. Because of its unique approach that develops the theory behind operation as well as specific details, it provides a basis that will allow a user to be able to use any gps receiver. Skills in the use of a gps will provide assurance and safety for the user. Topics extend beyond just operating the unit to actually being able to use it for navigation on the land, in the sea, or in the air. Topics are applicable whether you are hiking or driving to your destination. These topics include product operation, waypoints, routes, tracklogs, navigation, maps and databases, product selection, features, theory, accessories, and product unique functions.

This book shows you how to use a GPS and Google Earth to create simple and expressive maps to share on the web like the one shown on the cover. With a reading time of a mere 10 hours you will learn to work with a GPS without making mistakes, to use it with Google Earth including in areas without internet access and to quickly create diverse interactive maps that other people can see and modify over the internet without the need for experts or unnecessary complications. Even though it has been written in the context of Relief and Development work, the same process is valid for whatever other application.

While most books examine only the classical aspects of hydrology, this three-volume set covers multiple aspects of hydrology, and includes contributions from experts from more than 30 countries. It examines new approaches, addresses growing concerns about hydrological and ecological connectivity, and considers the worldwide impact of climate change

Backpacker brings the outdoors straight to the reader's doorstep, inspiring and enabling them to go more places and enjoy nature more often. The authority on active adventure, Backpacker is the world's first GPS-enabled magazine, and the only magazine whose editors personally test the hiking trails, camping gear, and survival tips they publish. Backpacker's Editors' Choice Awards, an industry honor recognizing design, feature and product innovation, has become the gold standard against which all other outdoor-industry awards are measured.
