“All-electric” Narratives is the first in-depth study of time-saving electrical appliances in American literature. It examines the literary depiction of refrigerators, vacuum cleaners, oven ranges, washing machines, dryers, dishwashers, toasters, blenders, standing and hand-held mixers, and microwave ovens between 1945, when the “all-electric” home came to be associated with the nation's hard-won victory, and 2020, as contemporary writers consider the enduring material and spiritual effects of these objects in the 21st century. The appropriation and subversion of the rhetoric of domestic electrification and time-saving comprises a crucial, but overlooked, element in 20th-century literary forms and genres including Beat literature, Black American literature, second-wave feminist fiction, science fiction, and postmodernist fiction. Arranging for installation is now the homeowner's responsibility. Installing the appliance themselves is the choice of increasing numbers of homeowners purchasing appliances in this way. For some appliances, DIY installation can cut the cost of an appliance by more than 50%. And equal cost-savings is achieved by the homeowner who is able to perform basic maintenance and repair tasks themselves. *DIY Guide to Appliances* is a comprehensive guide to installing and performing basic maintenance on all major household appliances, including washers and dryers, refrigerators, garbage disposers, dishwashers, water heaters, ovens, ranges and more.
