**Bordering** no longer happens only at the borderline separating two sovereign states, but rather through a wide range of practices and decisions that occur in multiple locations within and beyond the state ' s territory. Nevertheless, it is too simplistic to suggest that borders are everywhere, since this view fails to acknowledge that particular sites are significant nodes where border work is done. Similarly, border work is more likely to be done by particular people than others. This book investigates the diffusion of bordering narratives and practices by asking ' who borders and how? ' *Placing the Border in Everyday Life* complicates the connection between borders and sovereign states by identifying the

Individuals and organizations that engage in border work at a range of scales and places. This edited volume includes contributions from major international scholars in the field of border studies and allied disciplines who analyze where and why border work is done. By combining a new theorization of border work beyond the state with rich empirical case studies, this book makes a ground-breaking contribution to the study of borders and the state in the era of globalization.

The difficult mission of a regime change: Toshio Nishi gives an account of how America converted the Japanese mindset from war to peace following World War II.

the travails of the contemporary newspaper business, Dead Tree Media is essential reading.

At the end of World War II, Britain possessed a vast African empire encompassing nearly 2.7 million square miles, about 10 times larger than Britain itself. But by 1965, only three small African territories remained under British control, all of which would become independent before the end of 1968. This book examines the swift demise of Britain ' s African empire, looking particularly at the role played by the United States in bringing the empire to an end. It reveals how the United States was anti-colonial without being actively
