Gulnar, a mythical embodiment of womanhood, relates the tale of the seven men from Araby, ostensibly the cr è me de la cr è me of the nation, the pillars of rectitude and the symbols of power and influence. They all coveted her body and only sheer lust after her made them agree to make it to her Greek Island. But Gulnar was of no easy virtue and would give herself only to the one proving to be the most enthralling. A contest was staged and each of the seven men had to relate his own story: the events of the most exciting week in his life. . . Seven is a daring novel in both form and content. The ironic version of the Sheherazade archetype is a daring challenge to an entire poetics and more vocally to the ethical decay of an entire nation. The narrative vehicle of the memoir-within-memoir is used to fascinating effect, and the intertextuality is powerful. Equally poignant is the irony and the self-revelation, the veiled social critique and the laying bare of rotten values taken on trust for far too long.

First Published in 1982. This collection of informal essays is described by the author as talks they have given to people who know the, best as a poet, minor academic, and major bureaucrat. These talks were to Saudi Arabian audiences and speak from an Arab point of view – whether about poetry, education, or the social problems of a rapidly developing environment. The author aims to bestow adventurous thinking onto the reader, claiming this to be of a greater value than similar titles which instead encourage cerebral quietness.

These seven short essays provide a brief and cogent overview of selected Hadiths (traditions of the Prophet Muhammad used as sources for religious law) that the author contends were not only revolutionary for their time but have retained their potential to drastically revolutionize Islamic societies today. Each Hadith is presented in the words of classical Muslim commentators, followed by Alghosaibi’s interpretation. He frames the Hadiths as they can and should be applied to contemporary circumstances, lending new vitality to modern Muslim social and political life. A bold and clearly reasoned call for reform, A Revolution in the Sunnah concisely demonstrates the progressive urge at the core of Islamic tradition. The topics covered are political integrity; the role of women in society and the military; civil rights; privacy; cruelty to animals; family planning; and torture.

Born into a leading merchant family in Saudi Arabia à ??s Eastern Province, Dr Alghosaibi not only experienced but, as Minister for Industry and Electricity and Minister of Health, played a leading part in the Kingdom à ??s rapid modernisation during the 1970s and 1980s. In this administrative autobiography, we are treated to the wit and wisdom of one of Saudi Arabia à ??s leading technocrats who, as poet, writer, broadcaster and, latterly, ambassador, is also one of its most prominent intellectuals and gifted communicators. In recounting his career, he provides us with a series of profound and penetrating insights into the relationship between the political leadership, the executive and the administrative machine. Along the way we are given an insider à ??s view of the personalities of successive monarchs, the whirlwind transformation of the Kingdom à ??s infrastructure, the tensions between conservatives and modernisers, and Saudi Arabia à ??s relations with its neighbours. In Dr Alghosaibi à ??s view of the human condition, we are all victims of administration from the day we are born, and inevitably grow up to be perpetrators of it too. Illustrating his story with vivid and occasionally hilarious incident, he reflects on what he calls his own "aggressive" style of administration in contrast to the à ??defensive à ? style, the pitfalls of popularity and media stardom, the requirements of education and development, the relative merits of state ownership and privatisation, the challenges of national healthcare, and the claims of family life. The book is packed with judicious tips for budding administrators and diplomats. All those interested in the workings of government in this most conservative of modern Islamic states will find in Dr Alghosaibi à ??s life in administration an essential and entertaining companion.

A Love Story is a poignant reflection on passionate, enduring love and the joys and tragedies of life. Through a sequence of dreams, flashbacks and conversations, Yacoub Iryan, a dying novelist, reflects upon his life, his achievements and his passionate, yet fleeting love affair with a married woman. The extraordinary memoir of global oil’s former central banker Ali Al-Naimi is the former Saudi oil minister - and OPEC kingpin - a position he held for the two decades between August 1995 and May 2016. In this time, Al-Naimi’s briefest utterances moved markets. But it wasn’t always that way. Al-Naimi was born into abject poverty as a nomadic Bedouin in the 1930s, just as US companies were discovering vast quantities of oil under the baking Arabian deserts. From his first job as a shepherd boy, aged four, to his appointment to one of the most powerful political and economic jobs in the world, Out of the Desert charts Al-Naimi’s extraordinary rise to power. Described by Alan Greenspan as ‘the most powerful man you’ve never heard of’, Al-Naimi’s incredible journey proves that anyone can make it - even a poor Bedouin shepherd boy. This is his exclusive inside story of power, politics and oil. His Excellency Ali Ibrahim Al-Naimi is the former Minister of Petroleum and Mineral Resources for the Kingdom of Saudi Arabia. One of the most powerful economic and political jobs in the world, he held this post from August 1995 to May 2016. Prior to that he held a wide range of leadership positions in the Kingdom’s national oil company, Saudi Aramco. He was the first Saudi national to be named President of the company in 1984 and became the first Saudi CEO in 1988. Al-Naimi joined the company, then called Aramco, as an office boy in 1947. A Bedouin, he was born in the deserts of eastern Arabia in 1935.
