Steve Coll's Ghost Wars: The Secret History of the CIA, Afghanistan, and Bin Laden, from the Soviet Invasion to September 10, 2001 offers revealing details of the CIA's involvement in the evolution of the Taliban and Al Qaeda in the years before the September 11 attacks. From the beginning, Coll shows how the CIA's on-again, off-again engagement with Afghanistan after the end of the Soviet war left officials at Langley with inadequate resources and intelligence to appreciate the emerging ...

Ghost Wars: The Secret History of the CIA, Afghanistan ...

The news-breaking book that has sent shockwaves through the White House, Ghost Wars is the most accurate and revealing account yet of the CIA's secret involvement in al-Qaeda's evolution. Prize-winning journalist Steve Coll has spent years reporting from the Middle East, accessed previously classified government files and interviewed senior US officials and foreign spymasters. Here he gives the full inside story of the CIA's covert funding of an Islamic jihad against Soviet forces in Afghanistan, explores how this sowed the seeds of bn Laden's rise, traces how he built his global network and brings to life the dramatic battles within the US government over national security. Above all, he lays bare American intelligence's continual failure to grasp the rising threat of terrorism in the years leading to 9/11 - and its devastating consequences.

Winner of the 2005 Pulitzer Prize " The CIA itself would be hard put to beat his grasp of global events. . . . Deeply satisfying. " —The New York Review of Books From the award-winning and bestselling author of Directorate S, the explosive first-hand account of America's secret history in Afghanistan. To what extent did America ’ s best intelligence analysts grasp the rising thread of Islamist radicalism? Who tried to stop bin Laden and why did they fail? Comprehensively and for the first time, Pulitzer Prize-winning journalist Steve Coll recounts the history of the covert wars in Afghanistan that fueled Islamic militancy and sowed the seeds of the September 11 attacks. Based on scrupulous research and firsthand accounts by key government, intelligence, and military personnel both foreign and American, Ghost Wars details the secret history of the CIA ’ s role in Afghanistan (including its covert operations against Soviet troops from 1979 to 1989), the rise of the Taliban, the emergence of bin Laden, and the failed efforts by U.S. forces to find and assassinate bin Laden in Afghanistan.

Provides a comprehensive overview of the CIA's and other covert agencies' operations in Afghanistan, from the Soviet invasion in 1979 through the summer of 2001, detailing the rise of the Taliban and bin Laden, the secret efforts of the CIA to capture or kill bin Laden since 1998, and their failure to stop bin Laden, al Qaeda, and the events of September 11th.

Winner of the 2005 Pulitzer Prize " The CIA itself would be hard put to beat his grasp of global events. . . . Deeply satisfying. " —The New York Review of Books From the award-winning and bestselling author of Directorate S, the explosive first-hand account of America's secret history in Afghanistan. Winner of the 2018 National Book Critics Circle Award for Nonfiction Longlisted for the 2018 National Book Award for Nonfiction From the Pulitzer Prize-winning author of Ghost Wars, the epic and enthralling story of America's intelligence, military, and diplomatic efforts to defeat Al Qaeda and the Taliban in Afghanistan and Pakistan since 9/11 Prior to 9/11, the United States had been carrying out small-scale covert operations in Afghanistan, ostensibly in cooperation, although often in direct opposition, with I.S.I., the Pakistani intelligence agency. While the US was trying to quell extremists, a highly secretive and compartmentalized wing of I.S.I., known as "Directorate S," was covertly training, arming, and seeking to legitimize the Taliban, in order to enlarge Pakistan's sphere of influence. After 9/11, when fifty-nine countries, led by the U. S., deployed troops or provided aid to Afghanistan in an effort to flush out the Taliban and Al Qaeda, the U.S. was set on an invisible slow-motion collision course with Pakistan. Today we know that the war in Afghanistan would falter badly because of military hubris at the highest levels of the Pentagon, the drain on resources and provocation in the Muslim world caused by the U.S.-led invasion of Iraq, and corruption. But more than anything, as Coll makes painfully clear, the war in Afghanistan was doomed because of the failure of the United States to apprehend the motivations and intentions of I.S.I.'s "Directorate S". This was a swirling and shadowy struggle of historic proportions, which endured over a decade and across both the Bush and Obama administrations, involving multiple secret intelligence agencies, a litany of incongruous strategies and tactics, and dozens of players, including some of the most prominent military and political figures. A sprawling American tragedy, the war was an open clash of arms but also a covert melee of ideas, secrets, and subterranean violence. Coll excavates this grand battle, which took place away from the gaze of the American public. With unsurpassed expertise, original research, and attention to detail, he brings to life a narrative at once vast and intricate, local and global, propulsive and painstaking. This is the definitive explanation of how America came to be so badly ensnared in an elaborate, factional, and seemingly interminable conflict in South Asia. Nothing less than a forensic examination of the personal and political forces that shape world history, Directorate S is a complete masterpiece of both investigative and narrative journalism.

The rise and rise of the Bin Laden family is one of the great stories of the twentieth century; its repercussions have already deeply marked the twenty-first. Until now, however, it is a story that has never been fully told, as the Bin Ladens have successfully fended off attempts to understand the family circles from which Osama sprang. In this the family has been abetted by the kingdom it calls home, Saudi Arabia, one of the most closed societies on earth. Steve Coll ’ s The Bin Ladens: An Arabian Family in the American Century is the groundbreaking history of a family and its fortune. It chronicles a young illiterate Yemeni bricklayer, Mohamed Bin Laden, who went to the new, oil-rich country of Saudi Arabia and quickly became a vital figure in its development, building great mosques and highways and making himself and many of his children millionaires. It is also a story of the Saudi royal family, whom the Bin Ladens served loyally and without whose capricious favor they would have been nothing. And it is a story of tensions and contradictions in a country founded on extreme religious purity, which then became awash in oil money and dazzled by the temptations of the West. In only two generations the Bin Ladens moved from a famine-stricken desert canyon to luxury jets, yachts, and private compounds around the world, even going into business with Hollywood celebrities. These religious and cultural gyrations resulted in everything from enthusiasm for America—exemplified by Osama ’ s free-living pilot brother Salem—to an overwhelming determination to destroy it. The Bin Ladens is a meticulously researched, colorful, shocking, entertaining, and disturbing narrative of global integration and its limitations. It encapsulates the unsettling contradictions of globalization in the story of a single family who has used money, mobility, and technology to dramatically varied ends.

Unlike the wars in Vietnam and Iraq, the US invasion of Afghanistan in 2001 had near-unanimous public support. At first, the goals were straightforward and clear: to defeat al-Qaeda and prevent a repeat of 9/11. Yet soon after the United States and its allies removed the Taliban from power, the mission veered off course and US officials lost sight of their original objectives

From the award-winning and bestselling author of Ghost Wars and Directorate S, a trek across a socially and politically damaged South Asia Bestselling author Steve Coll is one of the preminent journalists of the twenty-first century. His last two books, the Pulitzer Prize-winning Ghost Wars and New York Times bestseller The Bin Ladens, have been praised for their creative insight and complex yet compelling narratives-and have put him on par with journalists such as the legendary Bob Woodward. Now, for the first time ever, the paperback edition of On the Grand Trunk Road is finally available, revised and updated with new material. Focusing on Coll's journeys in conflict-ridden India, Pakistan, Bangladesh, Sri Lanka, Nepal, and Afghanistan as a bureau chief for The Washington Post, On the Grand Trunk Road reveals a little-seen area of the world where violence, corruption, and greed have had devastating effects on South Asians from all walks of life.

Containing explosive details of operations unknown even to 99% of serving SAS men, this is the definitive history of the regiment written by an ex-SAS soldier of 23 years' experience. Connor reveals how the assassination of President Kennedy gave the SAS truly global significance. He tells the truth about SAS involvement in the Falklands War and the Gulf War and about their operation against the IRA in Gibraltar. Compiled from personal experience and the eye-witness accounts of friends and colleagues, this book reveals the inside story of SAS operations in both conventional war and counter-terrorist operations. 'Controversial, blistering and unique' - Andy McNab

From the award-winning and bestselling author of Ghost Wars and Directorate S, an " extraordinary " and " monumental " exposé of Big Oil (The Washington Post) Includes a profile of current Secretary of State and former chairman and chief executive of ExxonMobil, Rex Tillerson In this, the first hard-hitting examination of ExxonMobil—the largest and most powerful private corporation in the United States—Steve Coll reveals the true extent of its power. Private Empire pulls back the curtain, tracking the corporation ’ s recent history and its central role on the world stage, beginning with the Exxon Valdez accident in 1989 and leading to the Deepwater Horizon oil spill in the Gulf of Mexico in 2010. The action spans the globe—featuring kidnapping cases, civil wars, and high-stakes struggles at the Kremlin—and the narrative is driven by larger-than-life characters, including corporate legend Lee " Iron Ass " Raymond, ExxonMobil ’ s chief executive until 2005, and current chairman and chief executive Rex Tillerson, President-elect Donald Trump's nomination for Secretary of State. A penetrating, news-breaking study, Private Empire is a defining portrait of Big Oil in American politics and foreign policy.
