Sometimes, love is just an illusion. Sometimes, it becomes the sole purpose of your life. While stories on social media were trending, Raghu was lost in books. For him, even the idea of falling in love was limited to books-until he met Ruhi. As their love plays out against the backdrop of the upcoming student elections, Raghu finds himself embroiled in a mess he cannot seem to get out of. When his closest friends hatch a plan to rescue him, it only puts him in further jeopardy. Will his love sail through or will it get swept away by the storm of campus politics? Set in this elaborate sociopolitical milieu,

Sudeep's new book explores the dark side of relationships, the pursuit of power and the hypocrisy of the powerful.

This new edition is a comprehensive guide to clinical pathology for undergraduate medical students. Divided into three main sections, the text begins with discussion on clinical chemistry and other laboratory tests in the diagnosis and management of disease. Topics include function tests for urinal, renal and liver disorders, tests for diabetes, cerebrospinal fluid tests, and more. Section two covers blood tests for numerous disorders, and the third section discusses blood groups, their compatibility, screening, and transfusion. The second edition has been fully revised to provide the latest advances in the field. New topics in immunology, serology, flow cytometry and immunohistochemistry in haematology, have been added to this edition. The book is further enhanced by clinical photographs, pathology images and tables, and an appendices section covers the links between laboratory tests and findings with various diseases, reference ranges in adults, and critical values. Key points Comprehensive guide to clinical pathology for undergraduate medical students Fully revised, second edition featuring many new topics Includes detailed appendices for further learning Previous edition (9789380704197) published in 2010

Gain a clear understanding of pathophysiology and lab testing! Clinical Chemistry: Fundamentals and Laboratory Techniques prepares you for success as a medical lab technician by simplifying complex chemistry concepts and lab essentials including immunoassays, molecular diagnostics, and quality control. A pathophysiologic approach covers diseases that are commonly diagnosed through chemical tests – broken down by body system and category – such as respiratory, gastrointestinal, and cardiovascular conditions. Written by clinical chemistry educator Donna Larson and a team of expert contributors, this full-color book is ideal for readers who may have minimal knowledge of chemistry and are learning laboratory science for the first time. Full-color illustrations and design simplify complex concepts and make learning easier by highlighting important material. Case studies help you apply information to real-life scenarios. Pathophysiology and Analytes section includes information related to diseases or conditions, such as a biochemistry review, disease mechanisms, clinical correlation, and laboratory analytes and assays. Evolve companion website includes case studies and animations that reinforce what you've learned from the book. Laboratory Principles section covers safety, quality assurance, and other

fundamentals of laboratory techniques. Review questions at the end of each chapter are tied to the learning objectives, helping you review and retain the material. Critical thinking questions and discussion questions help you think about and apply key points and concepts. Other Aspects of Clinical Chemistry section covers therapeutic drug monitoring, toxicology, transplantation, and emergency preparedness. Learning objectives in each chapter help you to remember key points or to analyze and synthesize concepts in clinical chemistry. A list of key words is provided at the beginning of each chapter, and these are also bolded in the text. Chapter summaries consist of bulleted lists and tables highlighting the most important points of each chapter. A glossary at the back of the book provides a quick reference to definitions of all clinical chemistry terms.
