attempting to  
implement lasting  
change in financial  
governance, Walter  
emphasizes the limits  
of global regulatory  
convergence in the  
absence of support  
from domestic  
politicians,  
institutions, and firms.

# Read Book

## Governing

Shows how the politics of banking crises has been transformed by the growing 'great expectations' among middle class voters that governments should protect their wealth.

One of the apparent contradictions which has puzzled

# Read Book

## Governing

Observers of East

Asian politics is why, despite the region's considerable economic integration, economic governance institutions remain largely

underdeveloped. This book stems from the observation that the study of actual forms of economic governance in Asia

# Read Book

## Governing

has been impeded by the dominance of a 'regionalism' problematique.

Scholars have focused on the emergence – or not – of regional multilateral institutions, seeking to evaluate these institutions' capacities to enforce disciplines on Asian states. However, they

# Read Book

## Governing

have also neglected prior, and more pertinent, questions regarding the causal determinants of regional economic governance, which animate the contributions to this collection: What factors shape the scale and instruments of economic governance in Asia;

# Read Book

## Governing

and how and why is economic governance being rescaled between the sub-national, national and regional levels? In the chapters of this book, the contributors explore the social and political struggles over the scale and instruments of economic governance. They

# Read Book

## Governing

Identify and explain the emergence of a wide variety of regional modes of economic governance, explain the factors shaping the spatial scale of economic governance in Asia, and discern the patterns of regional integration to which they give rise.

This book was

# Read Book Governing

Originally published as a special issue of the Australian Journal of International Affairs.

In light of the Asian financial crisis of 1997, Lai examines whether East Asian economies converged onto the liberal market model by studying the evolution of the financial sectors of
