This volume outlines the Islamic world view and reviews the ways it can be interpreted, reassessed, and applied to environmental problems like pollution and water scarcity.

How might understandings of environmentalism and the

From references to animals in the Qu'ran to modern-day websites on Islamic vegetarianism, Richard C. Foltz presents the first comprehensive study of the role of animals in the Islamic tradition.

Online Library Green Deen What Islam Teaches About

Drawing on a wide range of sources, including classic mysticism, Foltz traces the development of Islamic attitudes towards animals over the centuries and confronts the key ethical questions facing Muslims today. Modern advances in science and technology and the increasing
