It is, of course, commonplace for corporations to operate sophisticated identity programmes. But identity has now moved way beyond the commercial area. We live in a world in which cities, charities, universities, clubs - in fact any activity that involves more than two or three people - all seem to have identities too. However, very few of these organizations have released the full potential that effective management of identity can achieve. In this book, the world's leading authority on corporate identity shows how managing identity can create and sustain behavioural change in an organization as well as achieving the more traditional outcome of influencing its external audiences. The New Guide to Identity provides a simple clear guide to identity, including what it is and how it can be used to full effect. If a change of identity is required, the whole process is described from start-up (including investigation and analysis of the current identity), through developing the new identity structure, to implementation and launch. For anyone responsible for the identity of an organization, or for designing it for someone else, or attempting to achieve change in their organization, or studying the subject, this straightforward guide is essential reading.

In addition to examining the form and anatomy of every letter in the alphabet, punctuation marks and special characters, the book examines over 150 typefaces, their origins, and font characteristics, visually explained by full page tables including scale, weight, and useful alternatives. Cross-references allow typefaces to exist in a broader visual culture context, comparing important designs with seminal artpieces and movements, from Gutenbergsquo.s era to today. Krishna Sobti's lively, unapologetic portrayal of a married woman who brooks no limits to her sexuality is as compelling, pertinent and provocative today as when it first shook the Hindi literary world in 1966. Katha presents another masterpiece from one of the most spinted writers of our times. Mitro Marjani was not a writer's story ... I was amazed at the surprises Mitro gave me at every turn. Brought up outside the walls of patriarchy ... Mitro is her mother's daughter who can voice her desires and get away with it. She has no inhibitions about talking of things tabooed by tradition. She really impressed me - Krishna Sobti
