Tigus is a tiger who's too slow, and Zibi is an unusually fast turtle. They both get teased for being different. But Tigus thinks Zibi's shell is neat, and Zibi wants cool stripes like Tigus's, so they make a shell for Tigus and paint stripes on Zibi. The Tiger and the Turtle teach their friends that it's okay-and even cool-to be different.

Value investing is not just a system for success in the market. It is also an intellectual toolkit for achieving a deeper understanding of the world. In The Joys of Compounding, the value investor Gautam Baid builds a holistic approach to value investing and philosophy from his wide-ranging reading, combining practical approaches, self-cultivation, and business wisdom. Distilling investment and life lessons into a comprehensive guide, Baid integrates the strategies and wisdom of preminent figures whose teachings have stood the test of time. Drawing on the work of investing greats like Warren Buffett, Charlie Munger, and Ben Graham, as well as philosophers and scholars, he artfully interweaves the lessons learned from his many teachers. Baid demonstrates their practical applications in the areas of business, investing, and decision making and also shows that these ideas can be applied to one's own life with just as much reward. A celebration of the value investing discipline, this book also recounts Baid's personal experiences, testifying to his belief that the best investment you can make is an investment in yourself. The Joys of Compounding offers curated reflections on life and learning for all investors, investment enthusiasts, and readers seeking a dose of practical wisdom. This revised and updated edition highlights Baid's distinctive voice.

SUNDAY TIMES BESTSELLER Some people are born to be a certain thing. And I was a born fighter. At the age of eight, Michael Bisping began his training in martial arts. By the time he was 15, he was fighting in his first no holds barred competition. When he turned professional and joined the UFC he was sure about one thing: only a world championship title would do. A British underdog in the greatest fighting championship on earth, he spent the next decade winning some of the championship's most sensational contests to achieve his dream, becoming the first ever British UFC world champion in 2016. From his boyhood years learning to fight in the gyms of Lancashire to his most shocking clashes in the cage, in Quitters Never Win Bisping tells the raw and unfiltered story behind his legendary career for the first time, including his greatest wins, his fiercest rivals and the harrowing injury that forced him into retirement. As audacious, entertaining and as candid as the man himself, it's a backstage pass to one of the world's most extreme sports and an unbridled account of what it really takes to become a champion, from sleeping in his own car to reaching the summit of the world's fastest growing sport.

The Harley-Davidson WLA and other American military motorcycles performed crucial roles during the Second World War in the U.S. armed forces and other Allied armies worldwide. Liberator: The Harley-Davidson WLA in the Second World War for the first time tells the full story of how the U.S. Army and Marine Corps and other Allied armed forces used the Harley-Davidson WLA and other American military motorcycles during the war. The book traces the development of the WLA in 1940-42 from the civilian Forty-Five models of 1929-39, describes the evolution of U.S. Army and Marine Corps usage of motorcycles through the motorcycle-borne mechanized cavalry experiments of 1940-41, and addresses wartime use of motorcycles in each major type of U.S. Army unit (mechanized cavalry, armored divisions, infantry divisions, airborne divisions, military police, etc.) and in Marine Divisions, with detailed tables of organization and equipment for each. Moreover, Liberator: The Harley-Davidson WLA in the Second World War describes the use of the WLA, Indians, and other Harley-Davidsons in each Allied army that used them. It especially emphasizes their use by the Soviet Union, which was the largest user of the WLA, receiving more through Lend-Lease than the number used by the U.S. armed services. These countries include- Soviet Union- Canada- United Kingdom- Australia- New Zealand- South Africa- India- Poland - France - Brazil- Iran - Republic of ChinaAlthough primarily focused on the Harley-Davidson WLA, the book also describes use of other Harley-Davidsons, Indians, and small motorcycles designed for airborne troops, in the U.S. armed services and other allied armies. These other models include- Harley-Davidson WL- Harley-Davidson "Big Twins"- Indian 741, 640, 344, and 340- Cushman Model 53 scooter - Simplex ServicycleUnique human perspectives on the Harley-Davidson WLA and other American military motorcycles during the war come from the stories of several individual U.S. Army soldiers who fought on motorcycles, and the histories of a U.S. Army military police unit and a Red Army motorcycle battalion. These stories, several of them previously unpublished, are reminders of the men who once rode these machines during the war.This book will be of interest to enthusiasts of Harley-Davidson, Indian, and military motorcycles, and to military historians and preservationists worldwide.

Esquire, Ford Motors, Burton Snowboards, The Obama Administration, While all of these brands are vastly different, they share at least one thing in common: a teeny, little bit of Aaron James Draplin. Draplin is one of the new school of influential graphic designers who combine the power of design, social media, entrepreneurship, and DIY aesthetic to create a successful business and way of life. Pretty Much Everything is a mid-career survey of work, case studies, inspiration, road stories, lists, maps, how-tos, and advice. It includes examples of his work—posters, record covers, logos—and presents the process behind his design with projects like Field Notes and the " Things We Love " State Posters. Draplin also offers valuable advice and hilarious commentary that illustrates how much more goes into design than just what appears on the page. With Draplin's humor and pointed observations on the contemporary design scene, Draplin Design Co. is the complete package for the new generation of designers.

*** A 2016 National Parenting Product Awards (NAPPA) winner You've never seen a book like this before! It's the story of a train moving across the American landscape—but with an actual three-dimensional miniature train that loops up and down and across each spread, traveling along an interior track from front to back without ever leaving the pages. Move the red steam engine out of the depot and to the front of the book, where the sun is just coming up over a bay, and then take a journey across wide plains, up mountains and down hills, into a city at night with its beacons of light—and finally, back to the rail yard. The panoramic landscapes are filled with marvelous details that young children will delight in discovering, and the sweet, simple rhyming language pulls the story along and will be happily repeated when it's time to start the journey all over again. All aboard!

Indian Motorcycle recounts the full story of the iconic American brand whose history dates back 120 years to its founding in 1901.
