Haunted Weather: Music, Silence and Memory (Five Star ...
In Haunted Weather, David Toop asks these questions and gauges the impact of new technology on contemporary music. Partly personal memoir, partly travel journal, the book explores ways in which the body survives and redefines the boundaries in a period of intense, unsettling change and disembodiment. At the heart of the book is how sound and silence in space, in memory and in the action of performance acquire meaning.

Digital technology has changed the ways in which music is perceived, stored, distributed, mediated and created. The world of music is now a vast and complex jungle, teeming with CDs, MP3s, concerts, clubs, festivals, conferences, exhibitions, installations, websites, software programmes, scenes, ideas and competing theories. In the eye of the storm stands David Toop, shedding light on the most interesting music now being made ? on laptops, in downtown bars in Tokyo, wherever he finds it. Haunted Weather is part personal memoir and part travel journal, as well as an intensive survey of recent developments in digital technology, sonic theory and musical practice. Along the way Toop probes into the meaning of sound (and silence), offering fascinating insights into how computers can be used for improvisation. Merging anecdote and biography, autobiography and interviews, fact and fiction and a characteristically eclectic selection of music, David Toop spirals us through the 20th century’s guilty fascination with exotica. Notions of the exotic have long inspired musicians across the musical spectrum, from classical to ?easy listening? to rap - from Stravinsky to the Boo-Yah T.R.I.B.E. Exotica takes a look at some of the world’s most witty, experimental and adventurous sound recordings while taking in the work of Les Baxter, the meaning of Carmen Miranda, leopard skin leotards, pink fluffy cubicles, elevator music, and more... Painstakingly researched and brilliantly insightful, Exotica includes interviews with Burt Bacharach, Ornette Coleman, Bill Laswell, YMO’s Haroumi Hosono, Nusrat Fateh Ali Khan and The Boo-Yah Tribe.

Shortlisted for the Penderyn Music Book Prize 2017. In this first installment of acclaimed music writer David Toop’s interdisciplinary and sweeping overview of free improvisation, Into the Maelstrom: Music, Improvisation and the Dream of Freedom: Before 1970 introduces the philosophy and practice of improvisation (both musical and otherwise) within the historical context of the post-World War II era. Neither strictly chronological, or exclusively a history, Into the Maelstrom investigates a wide range of improvisational tendencies: from surrealist automatism to stream-of-consciousness in literature and vocalization; from the free music of Percy Grainger to the free improvising groups emerging out of the early 1960s (Group Ongaku, Nuova Consonanza, MEV, AMM, the Spontaneous Music Ensemble); and from free jazz to the strands of free improvisation that sought to distance itself from jazz. In exploring the diverse ways in which spontaneity became a core value in the early twentieth century as well as free improvisation’s connection to both 1960s rock (The Beatles, Cream, Pink Floyd) and the era of post-Cagean indeterminacy in composition, Toop provides a definitive and all-encompassing exploration of free improvisation up to 1970, ending with the late 1960s international developments of free music from Roscoe Mitchell in Chicago, Peter Br ö tzmann in Berlin and Han Bennink and Misha Mengelberg in Amsterdam.

“ Lyrical, moving, and revealing. ” —Tracy Chevalier, bestselling author of Girl with a Pearl Earring
A transfixing and beautifully rendered novel about a refugee ’ s escape from civil war—and the healing power of community. A young woman sits in her apartment, watching the small daily dramas of her neighbors across the way. She is an outsider, a mute voyeur, safe behind her windows, and she sees it all—the sex, the fights, the happy and unhappy families. Journeying from her war-torn Syrian homeland to this unnamed British city has traumatized her into silence, and her only connection to the world is the column she writes for a magazine under the pseudonym “ the Voiceless, ” where she tries to explain the refugee experience without sensationalizing it—or revealing anything about herself. Gradually, though, the boundaries of her world expand. She ventures to the corner store, to a bookstore and a laundromat, and to a gathering at a nearby mosque. And it isn ’ t long before she finds herself involved in her neighbors ’ lives. When an anti-Muslim hate crime rattles the neighborhood, she has to make a choice: Will she remain a voiceless observer, or become an active participant in a community that, despite her best efforts, is quickly becoming her own? Layla AlAmmar, a Kuwaiti-American writer and brilliant student of Arab literature, delivers here a complex and fluid book about memory, revolution, loss, and safety. Most of all, Silence is a Sense reminds us just how fundamental human connection is to survival.

The year is 1919 and the population of Great Britain is still struggling to its feet after being hit by the atrocities of the First World War. Progress is slow, even in quiet spots like the village of Broughton Underhill, on the edge of the Black Country. Gradually, soldiers return, wounds begin to heal and people try to move on with their lives. But for the Wentworth family, this proves to be impossible as former police sergeant Herbert Reardon returns to the village, determined to finally find out what happened the night that his daughter, Marianne, was found drowned in the lake all those years ago, when the war was just beginning. However, as Reardon begins to investigate, it becomes clear that secrets still abound and lips are staying sealed. When Edith Huckaby, a maid from Oaklands Park, is found murdered in exactly the same spot, Reardon is convinced that the two cases are linked. As Reardon tries to discover the hidden truth, his suspects and witnesses are painstakingly trying to rebuild their lives, in a world which has been changed and scarred forever. “Broken Music” is a masterful portrait of the horrors of the frontline and the anxiety of the home front, as the loves and losses of wartime Britain are woven together and the truth slowly dawns on a local tragedy.

Things aren ’ t always what they seem . . . From the outside, Victoria Campbell has everything. She is an accomplished, wealthy young professional living in the big city who has reached her career goals and is on track to break the glass ceiling. But under all this seeming success lies a haunted past that has kept her from opening herself up to most people and especially from the men she meets. Will the ghosts of the past continue to haunt her, or can she exorcise them in exchange for real happiness? The answer to this question becomes clearer, as such answers often do, on a trip home to visit family and friends. Things are different in Texas, and Victoria ’ s long-overdue homecoming with her new boyfriend in tow shines a light on the reality of their relationship and resurrects painful memories of dangers that can be lurking in plain sight. First-time author Rhonda Jolley has created a fast-paced, character-driven novel that will keep you thinking long after you ’ ve finished the final page.

David Toop has become one of our most significant touchstones of contemporary music writing and reportage. Employing intensified studies into World Music in relation to popular (as well as marginalized) contemporary trends, Toop has created one of the most distinctive publishing histories of modern music thinking for our times. Flutter Echo is his memoir of a life enchanted with all aspects of music both composed and abstract. Toop’s personal growth as a practicing musician, visual artist, and witness to some of the most significant events in modern music history is a completely fascinating view into a world of considered thought and random access. From recording for Brian Eno’s Obscure Records imprint in 1975 to co-publishing the radical music magazines Musics and Collusion to developing music programming for the BBC, to releasing recordings he personally made of Yanomami Shaman rituals to working with artists such as creative pop icon Bjork and Jamaican dub pioneer Prince Far-I, Toop has experienced one of the most interesting and dynamic timelines in the dynamic world of our contemporary sound world. Player, listener, scholar, reporter, communitarian, parent, iconoclast - David Toop brings his own life in music to focus in a remarkable, wonder-filled, engaging read.
