Then the cops see the tattoo on her back - a pair of beautifully wrought angel wings that lend the victim a sense of ethereal innocence. Forensic investigator Reilly Steel is soon on the scene and her highly tuned sixth sense tells her there is more to this case than a straightforward murder. And will Reilly get to the bottom of the mystery and uncover what links these children together before tragedy strikes again

The new forensic thriller from the international bestselling author of Taboo and Torn. Quantico-trained forensic investigator Reilly Steel is back in the country of her birth. Unsure about both her future and her position within the Dublin police force, Reilly hopes that a relaxing stay at the Florida beach home of her old FBI mentor Daniel Forrest will help her decide her future. When Daniel's son, policeman Todd Forrest, is called to the scene of a gruesome murder where the body of a beautiful woman has literally been torn in two, he is appalled. Not just because of the grotesque and theatrical nature of the crime but because he recognizes the victim as Daniel's goddaughter. In an attempt to find swift resolution on her old friend's behalf, Reilly finds herself drawn into the investigation. And when another disturbing murder occurs soon after, Reilly can't help but feel that she has come across something like this before. But where? Will the investigative team be able to find the murderer before his thirst for notoriety drives him to kill again? And will Reilly's brief hiatus in

the US force her into a decision about her future in Dublin, and the unfinished business she has there?

The investigating team discover that the victims have been targeted because of one worryingly common trait, and need to outsmart the killer before he makes his next move. Fans of Criminal Minds will love it and be left hungry for more." –Andrew Child, author of The Sentinel He had it planned out to perfection. She was weak and pathetic, past the point of fighting for her life. She must know she couldn't win, and soon it would all be over...on the count of three. A woman is reported missing in Miami, Florida, and Detective Kelly Marsh starts the investigation into her disappearance. But Marsh soon recognizes notable similarities between this woman's history and that of two victims, brutally murdered, their cases still unsolved. Marsh's gut tells her the killer may be back, and she'll need assistance from the FBI to take down this monster. Special Agent Brandon Fisher and his team with the Behavioral Analysis Unit jet south to coordinate their efforts with the local detective. With evidence mounting that the missing woman's fate is looking much the same as the other victims, Brandon and the others must work at their highest level of efficiency and cunning if they're going to stand a chance of saving her. After all, as they quickly come to realize, they're hunting a killer with an insatiable appetite for blood. And if the FBI team isn't careful, one of them may not make it out of Miami alive.
