This is a masterpiece of social history. Wonderful illustrations, by paintings, drawings, and photographs. I actually read the text cover to cover because the socio historic context of the clothing was so fascinating, and well written. Until I read this book I had no idea that men's clothes had so much meaning.

Men's Fashion, Jean-Paul Gaultier, Dior, Hidden Underneath, Le cas du sac, Yves Saint Laurent / by Farid Chenoune and Florence Müller, Yves Saint Laurent

Traces the development of men's clothing from the eighteenth century to the present, and describes fashion trends.

The end of World War II saw a dramatic change in the geography of men's fashion--staid, conservative British gave way to Italy's light, supple, colorful and daring styles. In 1952, when the rite of the runway was still exclusively for women, Brioni presented the first men's fashion show. Since then, Brioni has dressed many of the world's most recognizable men, from Gable to Wayne, Pacino to Baldwin, and Bond.

Yves Saint Laurent was an artist who worked in the sphere of fashion, and whose entire life was devoted to a quest for perfection. His entire creative output is featured in this book.

"Chenoune, the editor of *Carried Away*, and Olivier Saillard, the curator of the accompanying exhibition at the Musee des Arts Decoratifs, Europe's leading fashion and design museum, have organized the unimaginable wealth of bags into several categories. The chapter discussing domestic bags explains the relationship of bags in the contemporary world to those of other cultures and antiquity. In the chapter exploring travelers' bags, the rich variety of this type is discussed, including messengers' bags, knapsacks, wineskins,

Chenoud's sacks, bags for supplies, the 'auto' bag of the 1920s, the 'Gladstone' and the humble tote. Bags for professionals are also considered, including survey bags carried by postmen, plumbers, and other craftsmen, but also, medieval messengers' boxes, seamen's duffles, soldier's leather cartridge bags, and an overview of the design, leatherwork, and production of bags. The chapter devoted to bags as talismans celebrates the cross cultural, psychological, sexual, mythical, and shamanistic significance of bags ranging from Pre-Columbian ritual objects, to pilgrims' bags from the Middle Ages and Native American cosmogony bags. Carried Away surveys the surprising evolution of the useful commonplace bag into a high fashion totem, and suggests that, chameleon-like, the bag continues to change its form and adapt itself to new circumstances and uses." "The Illustrations

are gathered from an equally wide variety of sources and media, including traditional fashion photography, decorative arts, painting, ethnographic collections, military museums, and private collections." --Book Jacket.

Everything you ever wanted to know about mens clothing and so much more—from the exact hour Nelson lost his right eye to the type of palm needed for a Panama hat, what Cary Grants tailor had to do to his shoulders—and those all-important questions of what to where, when and why, including when to wear a bow tie (surely never is the only answer?). A quirky book full of facts that you never realised you needed to know, including the exact thickness of animal hair used to create must-have fashion items, including suits. Provocative, and controversial at times but always very well dressed.

By mixing styles drawn from the streets of London and Paris, Jean-Paul Gaultier has earned a place in the mainstream of haute couture. This fashion memoir looks at his career and his designs from the end of the 1970s onwards.

"A chronology of men's fashion and masculine style in the United States from the Civil War era through the beginning of the twenty-first century. Also demonstrates the democratization of men's fashion by mass production, distribution, and marketing. Includes illustrations"--Provided by publisher.

Be as in love with your jeans, sweatpants, or flannels as you want, it's hard to refute the sumptuous feel of a finely tailored suit—as well as the statement of power that comes with it. For over a century the suit

Bookmark File PDF History Mens Fashion Farid

has dominated wardrobes, its simple form making it the go-to attire for boardrooms, churches, or cocktail bars—anywhere one wants to make an impression. But this ubiquity has allowed us to take the suit's history for granted, and its complex construction, symbolic power, and many shifting meanings have been lost to all but the most devout sartorialists. In *The Suit*, Christopher Breward unstitches the story of our most familiar garment. He shows how its emergence at the end of the seventeenth century reflects important political rivalries and the rise of modern democratic society. He follows the development of technologies in the textile industry and shows how they converge on the suit as an ideal template of modern fashion, which he follows across the globe—to South and East Asia especially—where the suit became an icon of Western civilization. The quintessential

Bookmark File PDF History Mens Fashion Farid

emblem of conformity and the status quo, the suit ironically became, as Breward unveils, the perfect vehicle for artists, musicians, and social revolutionaries to symbolically undermine hegemonic culture, twisting and tearing the suit into political statements. Looking at the suit's adoption by women, Breward goes on to discuss the ways it signals and engages gender. He closes by looking at the suit's apparent decline—woe the tyranny of business casual!—and questioning its survival in the twenty-first century. Beautifully illustrated and written with the authority a Zegna or Armani itself commands, *The Suit* offers new perspectives on this familiar—yet special—garment.
