Welcome to the glamorous world of E1: the ambitious, disruptive new electric powerboat racing series aiming to bring 'rock and roll back to racing', emulate Formula E and ...

As we spoke the ancient text, our teacher translated ... It is so much a part of the fabric of our collective thinking that in its modern-day guises it is all but invisible. But parts of the biblical ...

Program combines traditional print and cutting-edge technology resources to provide students with the latest developments and current scientific thought in Biology.

* A complete course, from cells to the circulatory system * Hundreds of questions and many review tests * Key concepts and terms defined and explained Master key concepts. Answer challenging questions. Prepare forexams. Learn at your own pace. Are viruses living? How does photosynthesis occur? Is cloning a form of sexual or asexual reproduction? What is Anton van Leeuwenhoek known for? With *Biology: A Self-Teaching Guide, Second Edition*, you'll discover the answers to these questions and many more. Steven Garber explains all the major biological concepts and terms in this newly revised edition, including the origin of life, evolution, cell biology, reproduction, physiology, and botany. The step-by-step, clearly structured format of *Biology* makes it fully accessible to all levels of students, providing an easily understood, comprehensive treatment of all aspects of life science. Like all *Self-Teaching Guides*, *Biology* allows you to build gradually on what you have learned at your own pace. Questions and self-tests reinforce the information in each chapter and allow you to skip ahead or focus on specific areas of concern. Packed with useful, up-to-date information, this clear, concise volume is a valuable learning tool and reference source for anyone who needs to master the science of life.

Hardbound Pupil Editions for Grades 1-6 are organized into four units—Life, Physical, Earth, and Human Body sciences. An age-appropriate workbook is available for Kindergarten students.
