The Honda CB400 Super Four is a CB series 399 cc (24.3 cu in) standard motorcycle produced by Honda at the Kumamoto plant from 1992 to the present. The CB400 embodies the typical Universal Japanese Motorcycle produced through the 1970s, updated with modern technology. To this end, the bike has a naked retro

have received considerable attention in both theory and practice.

However, to date, only partial aspects of the relationship between sustainability performance, competitiveness and economic performance have been studied from a theoretical as well as an empirical perspective.

And, to date, no unique

relationship has prevailed in empirical studies. A number of explanations have been put forward to explain this, including methodological reasons, such as the lack of statistical data, the low quality of that data, or the fact that such data is often available for short time periods only. Other theoretical explanations have been developed,
