A witty and romantic novel of Regency love, family and appalling scandal, from a latter-day Jane Austen When their strait-laced, domineering father, Sir Clement Carnell, dies, Valentine throws open their Devonshire estate of Pennacombe to their fashionable cousins from London and Louisa feels free at last to reject the man Sir Clement wanted her to marry. Soon, the temptations of Regency London beckon, including the beautiful, scandalous, and very married Lady Harriet Eversholt, with whom Valentine becomes dangerously involved. Meanwhile, Louisa finds that freedom of choice is as daunting as it is exciting. Will the opportunity to indulge in a little folly lead to fulfillment—or disaster? A Little Folly is a novel to make Jane Austen proud and Georgette Heyer envious. An acclaimed author of historical fiction, Jude Morgan weaves together the very best of Regency era writing with "refreshingly original characters, an intriguing plot, and an elegantly ironic style." (RT Book Reviews on Indiscretion). In this exciting new novel, Morgan delivers a story that, yet again, will bring cheers from critics and readers alike.

Author Vizard covers blending the bowls, basic porting procedures, as well as pocket porting, porting the intake runners, and many advanced procedures. Advanced procedures include unshrouding valves and developing the ideal port area and angle.

The ultimate tool for unleashing your inner entrepreneur and for achieving enlightened wealth. This is a step-by-step guide to cracking your personal millionaire code and turning your enlightened ideas into millions. It showcases real-life stories of men and women who discovered and capitalised on their own "million-dollar ideas", or MDIs. These MDIs, the authors contend, are right under our noses - from bottled water to Post-It notes to less well-known but highly lucrative ideas - if only we can crack our personal millionaire code that will lead us to wealth. Throughout the book there are inspirational stories of ordinary people who cracked their code and created extraordinary fortunes from a single idea, often in the face of severe challenges. Hansen and Allen show how to overcome personal fears, gather an amazing team, discover and soul-storm not one but dozens of million-dollar ideas, as well as incredible, enlightened ways to market ideas and then hundredfold them.

Shilpa experienced her personal tsunami in March 2003 when meningitis struck her from nowhere. It sent her into a deep coma for 40 days and then waist down paralysis for 2 ½ years. In this book, which was her personal diary that got published, she shares her thoughts on family as her support system and all that it took to make her bounce back to life. Shilpa shares what helped her in her recovery, be it a sense of gratitude, a sense of humor or simply building a mental wall to ward off negativity. It is an account of a person who has been to the other side and then came back to celebrate life.

Annotation. A third volume of essays from various activities and events organized by the Centre for International Borders Research at Queens University of Belfast considers three modes in the analysis of culture and cross-border cooperation--cultures of co-operation, co-operation about culture, and the impact of culture on forms of co-operation--as possible strategies in the comparative social science of European borderlands. The case studies range from Israel's Green Line to Ulster Unionist identity. There is no index. Annotation ©2004 Book News, Inc., Portland, OR (booknews.com).
