the challenges faced by Korea in the 1990s due to the acceleration of globalization. By arguing that the transition attempted by Korea was badly conceived and ill designed, Restructuring 'Korea Inc.' focuses on corporate reform after the crisis that has led to the running up of huge 'transition costs'. This snappy, informative and readable book has a broad historical overview and with its suggestions for structural change for Korea. This book is an important contribution not only to Asian studies, but also to the study of financial crises and the political economy of economic reform.
