Buying a car is never easy. Besides spending a sizeable amount of money on this investment, your liveliness probably relies on this vehicle. You need to know that your car will get you from point A to point B in a timely and safe manner—so buying a lemon is not something you can afford to do. Buying A Car For Dummies is for you if you need to find out how to buy, sell, insure, drive, protect, or rent a vehicle. It doesn't matter how old you are (as long as you can legally drive and have a license), this book can make your experience with cars a smooth ride. Buying A Car For Dummies can help you save a truckload of money over the life of your vehicle as you find out all you need to know about new and used car ownership in this entertaining and informative reference guide. This dependable book covers all avenues of buying and owning a car, from negotiating a fair price to finding reliable insurance to saving money on routine servicing. You'll stay in the driver's seat as you discover how to: Calculate how much your current car really costs you Weigh the pros and cons of buying new or used Get the best trade-in, resale, or donation value for your vehicle Pick out a cherry and avoid lemons—expert advice for buying a reliable used car Determine what features and options you really need in a new car Get the straight scoop on financing or leasing your car Find an insurance policy and company you can trust Protect your automotive assets—from steering wheel locks to full-blown security systems With Buying A Car For Dummies as your guide, you can park your fears, frustrations, and anxieties as you discover how to decide between buying or leasing new wheels, how to negotiate with car dealers, how to foil car thieves and carjackers, how to protect yourself in a breakdown or accident, and how to protect your automotive assets with insurance, warranties, and service contracts. Plus, the book features a list of ten great automotive Web sites for pricing information, ratings, industry news, diagnostic troubleshooting, and more.

Modern car braking systems are designed to a very high standard, but the need for the home mechanic to know how to maintain their braking system is as important as ever. Whether upgrading your brakes at home or for the race track, Car Brakes offers guidance on upgrading, repairing and maintaining car braking systems. With step-by-step instructions, the book covers the key principles of braking systems, both drum and disc; stripping and rebuilding disc

and drum brakes, and the replacement of brake pads and callipers; rebuilding and maintaining handbrakes and how to install a hydraulic handbrake; replacing and repairing brake lights; upgrading your brakes and finally, fault-finding and safety tips. Fully illustrated with 121 colour photographs and step-by-step instructions.

Every century is marked by a few men and women whose efforts influence a nation, and even the world. In Korea, Chung Ju-yung is among such people. He shaped the destiny of his country by founding Hyundai Motor Company, and his legacy continues today through the spirit of this global company. In 2004, Hyundai ranked second on the J. D. Power and Associates Initial Quality Survey, and continues to be recognized in this and other top automotive rankings. Today, Hyundai has come to embody the spirit of "modern premium," by emphasizing the values of being simple, creative, and caring in its conception. Hyundai celebrates this legacy of imagination and innovation with images that evoke the strength, elegance, and speed of Hyundai's cars. For lovers of speed and design, Hyundai is the ultimate addition to any collection.

American business folklore is awash with the adventures of successful entrepreneurs. Still, most of these stories are about Americans, neglecting important and courageous entrepreneurs from other countries. *Made in Korea* recounts the story of how Chung Ju Yung rose from poverty to build one of the world's largest and most successful building empires - Hyundai - through a combination of creative thinking, tenacity, timing, political skills, and a business strategy that few competitors ever understood. Chung entered the shipbuilding business with no experience and went on to create the world's largest shipyard. He began making automobiles when foreign experts unanimously predicted he would fail, and he started a global construction company that has built some of today's greatest architectural wonders. He even convinced the International Olympic Committee to select South Korea over Japan as the site for the highly successful 1988 Olympics. Unlike most CEO's of major firms, Chung has always preferred the company of his workers to that of the global executive elite. Hard work, creativity and a capacity to never give up - this is the essence of Chung's life. In each of his ventures, he exhibited a sheer determination to succeed, regardless of the obstacles, and he worked tirelessly to instil this drive in all of his employees. Even today, in the midst of Korea's worst economic crisis in over four decades, Chung's company is busy implementing plans to emerge as an even stronger contender in the world economy. Illustrated with 32 pages of colour photographs not previously seen in the West, including photos of Chung's recent historic visit to North Korea in 1998, *Made in Korea* takes stock of Chung's entire life, highlighting both his contributions to society and the lessons his work can teach to aspiring entrepreneurs.

Discusses choosing the correct vehicle, setting a price, shopping for the vehicle, closing the deal, buying a used car, and making a great deal
