planned change process, from
engagement through to evaluation.
Suitable for a generalist approach, this
book illustrates the value of applying
theory to practice in a variety of social
work roles, across diverse fields and
facing assorted challenges. The first
section provides a practical

foundation for beginning to use
theory in your social work practice.

Section two looks at how you can
translate and integrate fourteen
theories commonly found in social
work across each phase of the
planned change process. The theories
discussed are: behavioural,

Statistics 6th Edition
interpretive anthropology,

psychodynamic, evolutionary biology,

cognitive, symbolic interactionism,

strengths, social constructionism

exchange economics, role, ecological,

critical, feminist, and systems theory.

The final section addresses some key

issues for real life social work
