Everything you need for your fairy tale is in here, in enchantingly pretty pages packed with pictures, witty captions, helpful hints and irresistible special offers. Send no money, just wish! Postmodern Fairy Tales seeks to understand the fairy tale not as children's literature but within the broader context of folklore and literary studies. It focuses on the narrative strategies through which women are portrayed in four classic stories: "Snow White," "Little Red Riding Hood," "Beauty and the Beast," and "Bluebeard." Bacchilega traces the oral sources of each tale, offers a provocative interpretation of contemporary versions by Angela Carter, Robert Coover, Donald Barthelme, Margaret Atwood, and Tanith Lee, and explores the ways in which the tales are transformed in film, television, and musicals.

Contemporary Fairy-Tale Magic studies the impact of fairy tales on contemporary cultures from an interdisciplinary perspective, with special emphasis on how literature and film are retelling classic fairy tales for modern audiences.

The Fairy Queen strictly forbids fairies from using their magic power on humans. But after Tiki accidentally meets Jan, a woman who is desperate for a baby daughter, she finds it impossible to resist fulfilling her wish. Now up against the dark and vicious power of evil, this fairy rebel must face the Queen's fury with frightening and possibly fatal results.

This translation of Likhachev's Poetika Drevnerusskoy Literatury (The Poetics of Early Russian Literature), is a study of medieval Russian literature, as contrasted with modern literature in its narrative methods, use of symbols, and depictions of time, space and situation. The gradual emergence of realism and the principle of a single author is outlined with examples from medieval and modern literature.
