~~John Major The Autobiography~~

The most impressive thing about John Major`s memoirs is its high literary quality. For a long book written in the relatively short span of two years, it is remarkable how from first page to last it's always readable, often eloquent and occasionally hilarious, since Major has a huge fund of amusing anecdotes.

John Major: The Autobiography | Books | The Guardian

John Major is a British politician who served as the prime minister of the UK and the leader of the 'Conservative Party' from 1990 to 1997. He was born in Surrey, South East England, and grew up there, before his family moved to Brixton. Leaving school at the age of 16, John started working as a clerk in London.

John Major Biography – Facts, Childhood, Family Life ...

This book is about John Major, the politician who took over from Maggie Thatcher as leader of the Conservative Party and British Prime Minister. She had an intense focus, span her views well, but approached it from what was the extreme right of her party. In many ways, she was the British Ronald Reagan, implementing many of his policies here.

John Major's autobiography is a clear and balanced account of his early life and of his time in office leading the United Kingdom.

John Major The Autobiography - builder2.hpd-collaborative.org

John Major had a highly unusual background for a Conservative Party leader. Born on March 29, 1943, in the middle-class London suburb of Merton, he was the son of Gwendolyn and Thomas Major. Thomas Major, 66 when his son was born, was a colorful man who had a remarkably varied career as a circus acrobat, vaudevillian, mercenary, and manufacturer of garden ornaments.

John Major: The Autobiography by Sir John Major, C.H ...

You are being redirected.

John Major's rise through Parliament was meteoric. That is, until within months of the 1992 election, when his government was in troubled waters. In this text, John Major is honest about what he won and lost, and about friends and foes within his own party as well as outside.

'The best memoir by a senior politician for years.' Simon Jenkins, Sunday Times

John Major's autobiography is one of the most personal and revealing ever written by a former British Prime Minister. Eagerly awaited, the remarkable story of his life, from an extraordinary childhood to becoming an influential leader at the forefront of global politics and subsequent fall, is candid, scrupulous, and unsparing. With complete candor and compelling insight, Major describes how he left school at fifteen, was unemployed, and through hard work and determination was elected to Parliament as a member of Margaret Thatcher's Conservative Party, which would transform Britain. Quickly becoming one of Thatcher's Cabinet members, he served as Chief Secretary to the Treasury, Foreign Secretary, and then Chancellor of the Exchequer, the powerful position from which he vaulted to Prime Minister in 1990 when, after Thatcher fell, he fought and won a shrewd campaign to succeed her. Major vividly recounts his role in shaping some of the most profound world events, including conferring with George Bush on the Gulf War, making the most decisive steps in a generation toward peace in Northern Ireland, leading Britain through the formation of the European Union, and calling a general election in 1992 in which his party won the most votes in British political history. Yet within months of the 1992 election his government was in troubled waters, and Major is candid about his difficulties and losses and the controversies and divisions within his own party. Through it all, including the landslide defeat of his Conservative Party on May 1, 1997, and his immediate stepping down as party leader and Prime Minister, John Major acted with a dignity rare in politics. As he talks about his leadership triumphs and defeats and his work with a diverse range of international figures including George Bush, Bill Clinton, Mikhail Gorbachev, Boris Yeltsin, Helmut Kohl, and Nelson Mandela, he offers invaluable insight into how political power is exercised both in the United Kingdom and abroad. Here is a fascinating story of a man, his passion for politics, and the genuine and significant contributions he has made to the lives of the British and people around the world.

A newly edited, single-volume commemorative edition of 'The Path to Power' and 'Downing Street Years'; this is Margaret Thatcher in her own words. Margaret Thatcher was the towering figure of late-twentieth-century British politics. Now following her death in 2013, this is her account of her remarkable life. Beginning with her upbringing in Grantham, she goes on to describe her entry into Parliament. Rising through the ranks of this man's world, she led the Conservative Party to victory in 1979, becoming Britain's first woman prime minister. Offering a riveting firsthand version of the critical moments of her premiership - the Falklands War, the miners' strike, the Brighton bomb and her unprecedented three election victories, the book reaches a gripping climax with an hour-by-hour description of her dramatic final days in 10 Downing Street. Margaret Thatcher's frank and compelling autobiography stands as a powerful testament to her influential legacy.

This first volume of Margaret Thatcher's memoirs encompasses the whole of her time as Prime Minister - the formation of her goals in the early 1980s, the Falklands, the General Election victories of 1983 and 1987 and, eventually, the circumstances of her fall from political power. She also gives frank accounts of her dealings with foreign statesmen and her own ministers.

In 1997, the biggest Labour victory in history swept England, ending eighteen years of Conservative government. Prime Minister Tony Blair — young, charismatic and complex — shaped the nation profoundly in the ten years that followed. From his work in Northern Ireland to the wars in Iraq and Afghanistan, few of his decisions were free from scrutiny and debate. Alternately beloved and reviled, he was an international figure to a degree matched by few British leaders — a role he continues in to this day through the Tony Blair Faith Foundation and his work in the Middle East. Now, for the first time, we see the fascinating journey and difficult choices of the prime minister through his own eyes. Grippingly candid and deeply intimate, *A Journey* is a must-read political memoir, full of startling insights into a host of world leaders, including George W. Bush and Bill Clinton. It is also a book that delves deeply and profoundly into what it means to be in a position of great power today, and its emotional and personal toll.

David Cameron was elected Conservative leader in 2005, promising to modernize the party following its three successive electoral defeats. He became Prime Minister in 2010, forming Britain's first coalition government in 70 years, at a moment of economic crisis, and went on to win the first outright Conservative majority for 23 years at the 2015 general election. In *For the Record*, he will explain how the governments he led transformed the UK economy while implementing a modern, compassionate agenda that included reforming education and welfare, legalizing gay marriage, honoring the UK's commitment to overseas aid and spearheading environmental policies. He will shed light on the seminal world events of his premiership—the Arab Spring; the rise of ISIS; the invasion of Ukraine; the conflicts in Libya, Iraq and Syria—as well as events at home, from the Olympic Games in 2012 to the Scottish referendum. He will provide, for the first time, his perspective on the EU referendum and his views on the

future of Britain's place in the world following Brexit. Revealing the battles and achievements of his life and career in intimate and frank detail, For the Record will be an important assessment of the significant political events of the last decade, the nature of power and the role of leadership at a time of profound global change.

Sir Malcolm Rifkind's political career has been as glittering as it has been long-lived. Indeed, as a minister for eighteen years, he has seen longer uninterrupted service than anyone since Lord Palmerston in the early nineteenth century. In both the Foreign Office and the Ministry of Defence, during some of the most turbulent years of the late twentieth century, he had a ringside seat at Margaret Thatcher's historic summit with President Gorbachev, was in charge of British troops during the Bosnian conflict, helped change Polish history during the Cold War, and held secret negotiations on the Falklands with the Argentinians. For his robustness against the Kremlin's aggression in Ukraine, he is currently banned from Russia by President Putin. Now, from the man himself, comes the inside story of all those affairs and more. From Rifkind's battles with Margaret Thatcher over Scotland to his five pivotal years as chairman of the Intelligence and Security Committee, overseeing GCHQ, working with MI6, meeting the CIA, Power and Pragmatism is the shrewd, humorous and frank memoir of a genuine political heavyweight.

The first translation of a previously unknown Aztec codex and its initiatory teachings for 2012 • Discloses the potential for great spiritual awakening offered at the end of the Aztec calendar cycle • Presents the only existing English-language transcription of the Aztec codex, with line-by-line commentary • Contains the epic poetry and metaphysical insights of Beat poet Marty Matz (1934–2001) In 1961 an unknown Aztec codex was revealed to Beat poet and explorer Marty Matz by a Mazatec shaman in the mountains of Oaxaca, Mexico. Originally intended for dramatic performance, this codex presents a profound metaphysical teaching describing how the end of time will bring about a visionary ascent. At the behest of his Mazatec teacher, Matz transcribed this pictorial codex into a literary form that would preserve its initiatory teachings and reveal its secret meanings to a wider audience. Pyramid of Fire is an epic poem that provides a vehicle to transport the initiate into the higher realms of consciousness. It represents a barely surviving thread of teachings that have been passed down in secret since the time of the Spanish Conquest. Revealed are the techniques by which man is transported to the stellar realm after death via the solar energy within what the ancients called the "serpent of consciousness." Line-by-line commentary by Matz and John Major Jenkins provides insights into the perennial philosophy contained in the codex and its relevance to our times.

This year marks the twentieth anniversary of one of the most momentous general elections this country has ever seen. John Major's defeat in 1997 ended a record eighteen years of Tory government, prompting accusations of failure and ignominy. A controversial leader, Major oversaw numerous crises in international and domestic policy. Between 1990 and 1997, he presided over Britain's participations in the Gulf War, the start of the Northern Ireland peace process, the Maastricht Treaty negotiations and, famously, Black Wednesday and Britain's exit from the ERM. Towards the end, Major's government was split over Europe and ridden with allegations of sleaze. Widely criticised by the media and politicians from all parties, Major went on to be crushed by Tony Blair and New Labour in the 1997 general election. An Unsuccessful Prime Minister? is the first wide-ranging appraisal of John Major's government in nearly two decades. This book reconsiders the role of John Major as Prime Minister and the policy achievements of his government. Major's government faced many more constraints and left behind a more enduring legacy than his critics allowed at the time or since.
