this text is the ideal choice for lecturers around the world. Carefully designed and written to map onto the way the subject is introduced at degree level, it remains the go-to text for undergraduate introductory and comparative politics courses. Furthermore, it can also be used as pre-course reading or as a point of reference throughout politics degrees, majors or minors. New to this Edition: - Restructured and revised to reflect the decline of democracy and the rise of populism and authoritarianism in different parts of the world - New Politics in Action features reflect the latest political developments - including 'Trump's triumph: politics as polarization'; 'South Africa: a one-party state?'; and 'North Korea: a rogue nuclear power?' - Discusses the transformation of the media landscape, assessing the advent and impact of social media and 'fake news' - New and improved text design reflecting the book's contemporary and engaging coverage - Accompanied by a brand new website, featuring a flashcard glossary, additional cases, interactive simulations and weblinks for students, PowerPoint slides for lecturers, a testbank and a guide to using the book.

"A comprehensive reader for my political geography course. Good summaries at the end, and articles include effective case study examples." - Rachel Paul, Western Washington University "A very useful and comprehensive introduction to key concepts in political geography. This book provides useful context not just for 'traditional' political geography modules, but also those examining broader issues of power, resistance and social movements." - Gavin Brown, University of Leicester "Vital for introducing basic concepts and terminology in a clear and concise fashion. The short chapters are accessible and well supplemented with pertinent examples." - Daniel Hammett, Sheffield University "I found the book to be very useful in a supplemental capacity, full of information that would be useful for an undergraduate or early graduate student." - Jason Dittmer, University College London This textbook forms part of an innovative set of companion texts for the

human geography subdisciplines. Organized around 20 short essays, *Key Concepts in Political Geography* provides a cutting-edge introduction to the central concepts that define contemporary research in the field. Involving detailed yet expansive discussions, the book includes: An introductory chapter providing a succinct overview of the recent developments in the field Over 20 key concept entries covering the expected staples of the sub-discipline, such as nationalism, territoriality, scale and political-economy, as well as relatively new arrivals to the field including the other, anti-statism, gender, and post-conflict A glossary, figures, diagrams and further reading. It is essential reading for undergraduate and postgraduate students of political geography.

The word 'fascism' sometimes appears to have become a catch-all term of abuse, applicable to anyone on the political right, from Hitler to Donald Trump and from Putin to Thatcher. While some argue that it lacks any distinctive conceptual meaning at all, others have supplied highly elaborate definitions of its 'essential' features. It is therefore a concept that presents unique challenges for any student of political theory or history. In this accessible book, Roger Griffin, one of the world's leading authorities on fascism, brings welcome clarity to this controversial ideology. He examines its origins and development as a political concept, from its historical beginnings in 1920s Italy up to the present day, and guides students through the confusing maze of debates surrounding the nature, definition and meaning of fascism. Elucidating with skill and precision its dynamic as a utopian ideology of national/racial rebirth, Griffin goes on to examine its post-Second World War mutations and its relevance to understanding contemporary right-wing political phenomena, ranging from Marine Le Pen to Golden Dawn. This concise and engaging volume will be of great interest to all students of political theory, the history of political thought, and modern history.
