As Toyota skids into an ocean of problems and uncertainty continues in the U.S. automotive industry, Lemon-Aid Used Cars and Trucks 20112012 shows buyers how to pick the cheapest and most reliable vehicles from the past 30 years. Lemon-Aid guides are unlike any other car and truck books on the market. Phil Edmonston, Canada's automotive Dr. Phil for 40 years, pulls no punches. Like five books in one, Lemon-Aid Used Cars and Trucks is an expos of car scams and gas consumption lies; a do-it-yourself service manual; an independent guide that covers beaters, lemons, and collectibles; an archive of secret service bulletins granting free repairs; and a legal primer that even lawyers cant beat! Phil delivers the goods on free fixes for Chrysler, Ford, and GM engine, transmission, brake, and paint defects; lets you know about Corvette and Mustang tops that fly off; gives the lowdown on Honda, Hyundai, and Toyota engines and transmissions; and provides the latest information on computer module glitches.

Covers principles of operation, troubleshooting, maintenance and repair of the modern braking system. Information on tool selection and usage is included, plus a chapter on brake system modifications and high-performance brake parts.

Haynes offers the best coverage for cars, trucks, vans, SUVs and motorcycles on the market today. Each manual contains easy to follow step-by-step instructions linked to hundreds of photographs and illustrations. Included in every manual: troubleshooting section to help identify specific problems; tips that give valuable short cuts to make the job easier and eliminate the need for special tools; notes, cautions and warnings for the home mechanic; color spark plug diagnosis and an easy to use index.

Franklin, Jack, Marla, Thadius, and Caitlin... this unlikely group of assorted misfits are the Cemeterians, a group that will take on any job - no, really, we mean any bloody job (money's a bit tight right now)! Trudge through disgusting sewers to battle manatee-massacring mermaids and soggy cultists, creep through creepy, fog-littered cemeteries straight out of an ancient Hammer Film soundstage, confront undead lecherous lodgers and other assorted beasties, creepies, and ghoulies. It all comes down to whether an adolescent giant Automaton, a truly mad, Mad Scientist, a surly Necromancer, a Banshee's granddaughter, and a reluctant furry monster straight from under your little sister's bed can manage not to kill each other - or, at least, quit fighting over the tele-privilege-schedule long enough to get the job done! Not likely.

In the late 1990s, the MP3 became the de facto standard for digital audio files and the networked computer began to claim a significant place in the lives of more and more listeners. The dovetailing of these two circumstances is the basis of a new mode of musical production and distribution where new practices emerge. This book is not a definitive statement about what the new music industry is. Rather, it is devoted to what this new industry is becoming by examining these practices as experiments, dedicated to negotiating what is replacing an "object based" industry oriented around the production and exchange of physical recordings. In this new economy, constant attention is paid to the production and licensing of intellectual property and the rise of the "social musician" who has been encouraged to become more entrepreneurial. Finally, every element of the industry now must consider a new type of audience, the "end user", and their productive and distributive capacities around which services and musicians must orient their practices and investments.

This is a print on demand edition of a hard to find publication. In 12/08, Pres. George W. Bush provided financial assistance to GM and Chrysler -- \$13.4 billion to GM and \$4 billion to Chrysler from the Troubled Assets Relief Program (TARP). Ford did not need such assistance immediately but might require a line of credit in 2009. A further \$6 billion was loaned to GM Acceptance Corp. (GMAC), and \$1.5 billion to Chrysler Financial, the two manufacturers's respective credit affiliates. Contents of this report: Intro.; Auto Industry Loan Develop. in 12/08; Impact on the National Economy; The Domestic Motor Vehicle Market; Financial Issues in the Auto Industry; Financial Solutions: Bridge Loans and Restructuring; Pension and Health Care Issues; Stipulations and Conditions on TARP Loans to the Auto Industry.
