Publishers Weekly's Most Anticipated Books of the Year One of Newsweek's Most Highly Anticipated Books of The Year One of BuzzFeed's Most Anticipated Books the Year Based on the acclaimed series—a finalist for the Pulitzer Prize—an intimate account of the devastating effects of gun violence on our nation's children, and a call to action for a new way forward

In 2017, seven-year-old Ava in South Carolina wrote a letter to Tyshaun, an eight-year-old boy from Washington, DC. She asked him to be her pen pal; Ava thought they could help each other. The kids had a tragic connection—both were traumatized by gun violence. Ava's best friend had been killed in a campus shooting at her elementary school, and Tyshaun's father had been shot to death outside of the boy's elementary school. Ava's and Tyshaun's stories are extraordinary, but not unique. In the past

decade, 15,000 children have been killed from gunfire, though that number does not account for the kids who weren't shot and aren't considered victims but have nevertheless been irreparably harmed by gun violence. In *Children Under Fire*, John Woodrow Cox investigates the effectiveness of gun safety reforms as well as efforts to manage children's trauma in the wake of neighborhood shootings and campus massacres, from Columbine to Marjory Stoneman Douglas. Through deep reporting, Cox addresses how we can effect change now, and help children like Ava and Tyshaun. He explores their stories and more, including a couple in South Carolina whose eleven-year-old son shot himself, a Republican politician fighting for gun safety laws, and the charlatans infiltrating the school safety business. In a moment when the country is desperate to better understand and address

gun violence, *Children Under Fire* offers a way to do just that, weaving wrenching personal stories into a critical call for the United States to embrace practical reforms that would save thousands of young lives.

In this book I have taken true life events that have actually occurred in my lifetime. My inspiration was about a real life game of Russian roulette. The last soul survivor of five young teenage boys was the one who told me his story. They did not all die from the actual playing of the game, but it did cause the boys a deep depression that took their lives, one by one. However, they did not all die the way my book describes. In fact, one of the boys death's was context I used from a real incident that took place when I was growing up. He was my friend. This boy was being bullied by six other teenage boys. After beating him up and ramming his head through a

plate glass window of the local paramount theater, he decided to end it all and jump in front of a train. Bullying is a serious matter that can effect young minds in ways that are so horrible, you might not find out what is really going on with them, until it is too late. May Tommy rest in peace. But I could not end this book here. I believe that when something bad happens, there are always good things to fall in its place. So I threw a few twists into my writings. There is a forest on the outskirts of my home town that was declared the historical cottonwoods, in which I use as the setting for this book. Wandering through the forest one day, I discovered a rather large naturally hollowed out cottonwood tree. This is where one lucky boys adventures begin. The boys built a real working elevator inside the tree that would lead to the bottom of a two story tree house they also

constructed. But it does not end there. A magical book of secrets reveals itself. In this book it tells the story about an underground city as it really happens. Inside the hollow of the tree and approximately ten feet below the surface, an underground elevator is activated, once the owner of the book comes forward. This will lead to a hallway full of doors, each leading to mystical places beyond your wildest dreams. At the end of the first hallway is a rather large room where all hallways begin. A hidden ceiling door slides open with a thunderous ear deafening screech. It is the glass bottom of the Fraser river, in which you are able to view underwater creatures in their natural habitat. Down one of the hallways there is a door to an ancient library that tells the history of the underground. It is referred to as the spell room. There is also another door that leads to the four seasons. A big

wooden door separates the hallways full of doors from an underground city called the Packs. Inside this city is a rather unique arena where there is a hockey game like you have never seen before.

This third installment in the popular series of practical books about guns and shooting is aimed at women of all ages—the fastest-growing segment of the sport—and it couldn't come at a better time. America and firearms literally grew up together, but today guns are often simply linked to crime and violence; gun control has become a polarizing political issue; and misinformation about firearms is spreading. Now three experts have tackled the subject in a series of books that explores the realities of guns and shooting and sets the record straight about some common misconceptions. On the heels of *The Gun Book for Boys* and *The Gun*

Get Free Kids With Guns 1

Book for Parents, *The Gun Book for Girls* is for girls (and women) interested in guns and shooting but who have little or no background in firearms. Through example and anecdote, the book emphasizes safety and proper usage, and it defines terms and provides hands-on advice about using and maintaining guns. It also covers firearms, shooting methods, clothing and accessories for women, profiles females who shoot and who work in the gun trade, and discusses the issues around guns for self-defense (a topic of special interest to women). Like the other two titles, this book is non-political and written in an easy-to-understand conversational tone. Each book is thoroughly illustrated, and content is presented in easily managed portions that can be read in series or singly, all backed up with an index.

A hard-boiled detective tale full of talking animals and murder, from the award-winning author of *Motherless Brooklyn* and *The Arrest*. Gumshoe Conrad Metcalf

Get Free Kids With Guns 1

has problems—there's a rabbit in his waiting room and a trigger-happy kangaroo on his tail. Near-future Oakland is a brave new world where evolved animals are members of society, the police monitor citizens by their karma levels, and mind-numbing drugs such as Forgettol and Acceptol are all the rage. Mixing elements of sci-fi, noir, and mystery, this clever first novel from a beloved author is a wry, funny, and satiric look at all that the future may hold. Metcalf has been shadowing Celeste, the wife of an affluent doctor. Perhaps he's falling a little in love with her at the same time. When the doctor turns up dead, our amiable investigator finds himself caught in a crossfire between the boys from the Inquisitor's Office and gangsters who operate out of the back room of a bar called the Fickle Muse.
