Whether taking a single course in elementary accounting or studying to become a chartered accountant, this textbook is designed to make the subject accessible and studying it easy and enjoyable. It is written in a friendly, personal style, and provides many examples with which students can identify. The text achieves this by:

- integrating learning objectives so that students are reminded at regular intervals of what they should be able to achieve at that stage of their studies
- regularly allowing students to test their theoretical understanding of concepts and principles through the use

combines comprehensive coverage and a rigorous approach to modern financial reporting with a readable and accessible style. Merging traditional principles of corporate finance and accepted reporting practices with current models enable the reader to develop essential interpretation and analysis skills, while the emphasis on real-world practicality and methodology provides seamless coverage of both GAAP and IFRS requirements for enhanced global relevance. Two decades of classroom testing among INSEAD MBA students has honed this text to provide the clearest, most comprehensive model for financial statement interpretation and analysis; a concise, logically organized pedagogical framework includes problems, discussion questions, and real-world case studies that illustrate applications and current practices, and in-depth examination of key topics clarifies complex concepts and builds professional intuition. With insightful coverage of revenue recognition, inventory accounting, receivables, long-term assets, M&A, income taxes, and other principle topics, this book provides both education and ongoing reference for MBA students.
