This indispensable resource for Western readers about the Kurds--an ancient indigenous group that exemplifies diversity in the Middle East--examines their history, politics, economics, and social structure. • Supplies a thorough examination of the Kurds, a people that are of great interest and relevance to the general public because of their successful campaign against the Islamic State • Offers a local, regional, and global perspective on important current Middle Eastern issues through the context of the Kurdish people • Underscores how the Kurds stand for diversity and pluralism in an otherwise homogeneous Middle East • Enables readers to develop a much better understanding of U.S. involvement in the Middle East • Includes entries written by a team of international contributors, including many Kurdish scholars

From the First Gulf War to the present upheaval in Syria, the Kurdish question has been a crucial issue within the Middle East region and in international politics. Spread across several countries, the Kurds constitute the largest stateless nation in the world. In this context, a striking question arises: how are Kurdish identity and the idea of the homeland - both as a symbol and as territorial space -

constructed in writings from Turkish Kurdistan and its diaspora? Through a comparative analysis of Kurdish writing, Ozlem Galip here provides the first comprehensive look at modern Kurdish literature. Drawing on theories of space and collective memory and exploring the use of the historical past and personal memories in the literature of stateless nations, this book analyses the construction of the imaginary homeland and the concept of Kurdish identity.

This thesis examines the close relationship among members of Iraqi Kurdish culture and society and emerging nationalists/modernist political structures currently in opposition to the Husain regime. In addition to providing updated information regarding various aspects of Kurdish society, this work supports the view that political actors and systems are primarily a product of, and subsequently supported by, socio-cultural factors such as tradition, environment and religion above and beyond the generally recognized economic and poli-historical influences. Following a descriptive portrait of Kurdish ethnicity and political structure, I introduce what I feel are enduring social patterns in Kurdish society. These patterns of personal and political relationships which have long flourished in tribal societies like the Kurds can be seen still in Kurdish national leadership. One model, 'saint-disciple', appears to render aptly not only Kurdish patterns of norms and social order, but much of Near Eastern and Islamic North African societies. In short, this thesis examines primordial ties within Kurdish society in transition from traditional to modernist. One system does not merely supplant that other, but rather adds to and adjusts the former according to the needs of society leaving underlying relations among social groups unchanged. Keywords: Ethnic groups; Islam; Kurdistan; Barzani; Talabani; Naqshbandi; Sufism; Theses. (EDC).

Robert Brenneman provides a razor-sharp awareness of the Kurds roots in the Middle East as well as their massive urban migration and the resulting cultural upheaval. Based on long-term research, this richly layered ethnography takes readers on a journey from the mountains of Ararat, the alleged resting place of Noahs Ark, to urban environments in a megalopolis like Istanbul, Turkey. Brenneman, who lived among the Kurds in both Iraq and Turkey, conducted fieldwork in such places as refugee camps, destroyed mountain villages, and tea gardens in Istanbul. He examines core and changing aspects of Kurdish culture, including human rights, ethnic identity, womens roles, family and community, religious practices, and the transition from oral tradition to literacy. In addition to providing insight into the worldview of the Kurdish people from antiquities to current events, the author points to key lessons that can be drawn from the ongoing dilemmas they face.

"Examining the major Kurdish revolts, this book analyzes the internal factors that led to their defeat, as well as arguing that reliance by Kurdish leadership on foreign powers has had disastrous consequences at crucial points in Kurdish history."--BOOK JACKET.

Rediscovering Kurdistan's Cultures and Identities: The Call of the Cricket offers insight into little-known aspects of the social and cultural activity and changes taking place in different parts of Kurdistan (Turkey, Iraq, Syria and Iran), linking different theoretical approaches within a postcolonial perspective. The first chapter presents the book's approach to postcolonial theory and gives a brief introduction to the historical context of Kurdistan. The second, third and fourth chapters focus on the Kurdish context, examining ethical changes as revealed in Kurdish literary and cinema narratives, the socio-political role of the Kurdish cultural institutions and the practices of countering othering of Kurdish migrants living in Istanbul. The fifth chapter offers an analysis of the nineteenth-century missionary translations of the Bible into the Kurdish language. The sixth chapter examines the formation of Chaldo-Assyrian identity in the context of relations with the Kurds after the overthrow of the Ba'ath regime in 2003. The last chapter investigates the question of the Yezidis' identity, based on Yezidi oral works and statements about their self-identification.
