Drawing on a wealth of knowledge and experience and a background of more than 1,000 magazine articles on the subject, engine control expert Jeff Hartman explains everything from the basics of engine management to the building of complicated project cars. Hartman has substantially updated the material from his 1993 MBI book Fuel Injection (0-879387-43-2) to address the incredible developments in automotive fuel injection technology from the past decade, including the multitude of import cars that are the subject of so much hot rodding today. Hartman's text is extremely detailed and logically arranged to help readers better understand this complex topic.

The F-104 Starfighter is quite possibly one of the most photographed aircraft of all time. It is certainly one of the most iconic. Here, Martin Bowman offers up a well researched, comprehensive and thoroughly entertaining history of this impressive interceptor aircraft and fighter bomber. Firsthand insights gathered from pilots who have flown the Starfighter in a variety of international contexts make for a rich and diverse narrative, interspersed throughout with a good selection of black and white and color illustrations that really bring the story to life. Over the course of an eventful history, the Starfighter has been caught up in an extensive variety of conflicts across the world. This book not only acquaints us with the landmark milestones of a widely utilized aircraft type, it also illuminates our understanding of the dynamic history of aviation in the second half of the twentieth century.
