If you are tasked with developing effective leaders, "teaching" just isn't going to be enough! Teaching leadership can be one of the most fulfilling, as well as challenging, tasks of a trainer. Learning for Leadership builds on foundational learning and development concepts and practices to help trainers and facilitators develop programs that meet these challenges and turn learners into leaders. Yael Hellman illustrates how a truly "facilitative" classroom is structured, and she shows why it is the best environment to learn leadership skills. The author does so through the lens of group dynamics and her own experience facilitating leadership courses for the Los Angeles Police Department. The facilitative approach invites learners to practice leadership by being accountable for reaching learning objectives, taking initiative to solve problems, and nurturing their own ideas rather than leaning on authority. This book includes everything you need to develop a facilitative leadership development course, including: icebreakers or warm-ups to focus learners on the session's agenda interactive instruction models to help them master content ideas for group work, including collective projects; experiential exercises or games and joint activities that immediately apply new material wrap-ups to summarize one session and link it to an upcoming one.

Gives trainers information they need to teach and apply leadership competencies participants need. Featuring adaptable exercises on a range of leadership topics, this collection of activities is an all-in-one resource for trainers seeking to prepare leaders.

Leadership, is a topic that's never convincingly satisfiable after reading just one book. Hence I have tried to collate as much as possible the best in my opinion here. This book can be used in two ways—One as just a good self read to understand Leadership as a whole. Second as a medium to train others providing great resource to trainers and educators for developing good leaders all over the world. Please feel free to use the matter from here and enhance it further as per your training needs. This might be just a drop in the ocean effort from my end but as Mother Teresa would put it—'Each drop gathered forms an ocean'...I have started for you to continue...Hope this drop in the ocean adds value to your life and training sessions...Good leaders build good nations and good nations would lead to building a peaceful world.
