Grazie ad avventurosi studi fu possibile dimostrare un secolo fa che parte della radiazione naturale che si osserva sulla Terra è di natura extraterrestre: era la scoperta dei cosiddetti “ raggi cosmici ” , particelle che arrivano da misteriosi acceleratori nell ’ universo, probabilmente buchi neri supermassicci e resti di supernova, a energie anche centinaia di milioni di volte di quelle a cui riusciamo a produrle con i più potenti acceleratori della Terra. A cent ’ anni dalle prime scoperte questo libro si propone, con l ’ aiuto di documenti scoperti recentemente, di raccontare la vera storia di questa appassionante avventura scientifica e le frontiere dell'esplorazione dei raggi cosmici.

Nel quarto volume della serie Gli Invisibili viene affrontata un'importante tematica ambientale che riguarda il futuro del nostro pianeta. Douglas, Crystal e Peter assistono ad un esperimento: un gruppo di telepati unirà le proprie menti per aumentare il loro potere. Inaspettatamente, però, giunge una strana richiesta d'aiuto e la più giovane partecipante all'esperimento subisce un tentativo di rapimento. Agli Invisibili non resta che affrontare questa nuova avventura e partire per l'Amazzonia, per fermare i piani di una misteriosa organizzazione segreta.

Volume n. 4 della collana ARCHITETTURA ENIGMATICA diretta da Ruggero Lenci Questo numero della collana editoriale architettura enigmatica si occupa della lettura critica della Torre Eurosky, con il fine di disvelare la genesi progettuale di quest'opera significativa e le ragioni di alcune vicende legate alla sua esecuzione, evitando da un lato facili lusinghe, dall'altro critiche chiassose, in ogni caso mantenendo una lettura il più possibile oggettiva e priva di reticenze in merito ai fenomeni architettonici e di impianto urbano analizzati. N. 4 volume of ENIGMATIC ARCHITECTURE series directed by Ruggero Lenci The Eurosky Tower, designed by Franco Purini and Laura Thermes in the centrality EUR-Castellaccio in Rome started from the union of two symmetrical towers, in many respects autonomous: a dolmen that on the roof performs liberating and propitiatory exploits. The ontogeny of Eurosky, recapitulates phylogeny of a series of projects delivered to the history of contemporary architecture. In the first place the constructivist Horizontal Skyscrapers for the center of Moscow, designed in 1924 by El Lissitzky, also called " Irons for the clouds " . But in it is also possible to find

futurist images by Antonio Sant'Elia, those of Hugh Ferriss, as well as the ones of BBPR of the Velasca Tower.

This book explores the tangled relationship between literary production and epistemological foundation as exemplified in one of the masterpieces of Italian literature. Filippo Andrei argues that Giovanni Boccaccio's Decameron has a significant though concealed engagement with philosophy, and that the philosophical implications of its narratives can be understood through an epistemological approach to the text. He analyzes the influence of Dante, Petrarch, Thomas Aquinas, Aristotle, and other classical and medieval thinkers on Boccaccio's attitudes towards ethics and knowledge-seeking. Beyond providing an epistemological reading of the Decameron, this book also evaluates how a theoretical reflection on the nature of rhetoric and poetic imagination can ultimately elicit a theory of knowledge.

Doveva essere una tranquilla cena fuori fra colleghe per tre insegnanti. Ma a fine serata nessuna di loro rientra più a casa. Sembrano sparite nel nulla, finché viene ritrovato in un motel il corpo di una delle tre. A indagare sul caso, c'è il sergente Lindsay Boxer della polizia di San Francisco. Chi è stato? Perché? Dove sono le altre due donne? Lindsay deve fronteggiare le pressioni del capo della polizia e della stampa: tutti vogliono il colpevole, tutti vogliono fermare l'orrore, ma lei brancola nel buio. Contemporaneamente, il marito e collega di Lindsay, Joe Molinari, incontra una sconosciuta proveniente dall'Europa dell'Est che afferma di aver identificato proprio a San Francisco un noto criminale di guerra del suo Paese d'origine, fino a quel momento ritenuto morto. Un uomo che si era macchiato di crimini

Read Book Lenigma Ges

atroci e di cui lei stessa era stata vittima. Ma subito dopo la denuncia del fatto, anche lei finisce drammaticamente nella scia delle donne scomparse... Lindsay, Joe e tutte le Donne del club omicidi devono unire le forze per proteggere San Francisco e loro stessi non solo da un fantasma del passato, ma anche da un vero mostro del presente. Un individuo tanto pericoloso quanto spietato nei confronti dell' universo femminile.

Migraine Art includes more than 300 powerful illustrations and paintings created by migraine sufferers from around the world. It provides a thoroughly unique window into the subjective world of the migraine sufferer. The idea of collecting migraine art started with a number of public competitions in the 1980s, which encouraged artists, both amateur and professional, to illustrate the pain, the visual disturbances, and the effect migraines had on their lives. The book includes hundreds of these submissions as well as detailed descriptions of different types of migraine visual phenomena. Covering such topics as migraine signs, triggers, and treatments, as well as types of visual hallucinations and somatic sensations and experiences, the book offers a comprehensive view of the migraine experience. Each category of visual disturbance is accompanied by related artwork. A description of migraine visual experiences of famous historical figures, such as Blaise Pascal and Lewis Carroll, provide historical background on the topic. The book also includes a history of four Migraine Art competitions and information about the Migraine Art collection.
