compilation of “Everyday Engineering” columns from NSTA’s award-winning journal Science Scope, engage middle-schoolers in hands-on investigations of the science and engineering behind objects they probably take for granted. The collection consists of 14 activities. Each includes a clear explanation of the science and history behind an item’s development plus a materials list, student data sheets, and safety suggestions. The collection is intended to be useful to classroom teachers as well as scout leaders, engineers leading outreach activities, after-school and summer enrichment program staff s, and parents. In addition to exposing young people to the marvels of design behind seemingly simple objects, Everyday Engineering may just spark a lifelong interest in engineering.

Terry Eagleton's Tragedy provides a major critical and analytical account of the concept of 'tragedy' from its origins in the Ancient world right down to the twenty-first century. A major new intellectual endeavour from one of the world's finest, and most controversial, cultural theorists. Provides an analytical account of the concept of 'tragedy' from its origins in the ancient world to the present day. Explores the idea of the 'tragic' across all genres of writing, as well as in philosophy, politics, religion and psychology, and throughout western culture. Considers the psychological, religious and socio-political implications and consequences of our fascination with the tragic.
