The true diversity of the American experience comes to life in this superlative collection of autobiographies—including those of Benjamin Franklin, Frederick Douglas, Mark Twain, and more... A True History of the Captivity and Restoration of Mrs. Mary Rowlandson (1682), perhaps the first American bestseller, recounts this thirty-nine-year-old woman's harrowing months as the captive of Narragansett Indians. The Autobiography of Benjamin Franklin (1771-1789), the most famous of all American autobiographies, gives a lively portrait of a chandler's son who became a scientist, inventor, educator, diplomat, humorist—and a Founding Father of this land. Narrative of the Life of Frederick Douglass (1845), the gripping slave narrative that helped change the course of American history, reveals the true nature of the black experience in slavery. Old Times on the Mississippi (1875), Mark Twain's unforgettable account of a riverboat pilot's life, established his signature style and shows us the metamorphosis of a man into a writer. Four Autobiographical Narratives (1900-1902), published in the Atlantic Monthly by Zitkala-Sa (Red Bird), also known as Gertrude Bonnin, provide us with a voice too seldom heard: a Native American woman fighting for her culture in the white man's world. Edited and with an Introduction by William L. Andrews and an Afterword by Paul John Eakin

The Introspective Art of Mark Twain is a major new assessment of a towering American writer. Seeking to

trace the development of Mark Twain's imagination, Douglas Anderson begins near the end of Twain's life, with the long dialogue *What Is Man?* that Twain published anonymously in 1906. In Twain's view, the little-read *What Is Man?* lies at the heart of his creative life. It is the central aesthetic testament that he employed to tell the story of his artistic evolution. Anderson follows the contours of that story as it unfolds over Twain's career. The portrait that emerges addresses the full scope of Twain's achievement, drawing on his autobiographical and travel writings, as well as the published and unpublished works of fiction that are by now deeply embedded in the world literary canon. "Steer by the river in your head," Mark Twain's master pilot, Horace Bixby, once advised him, when the opaque atmosphere of the outer world made it impossible to see the actual Mississippi through which Twain was trying to guide his steamboat. For the purposes of this book, the river in one's head is not a mental construct of the physical world but the riverine networks of consciousness itself: the river that is the mind. The detailed discussions of individual books that structure each chapter direct the attention of Mark Twain's students and admirers, through inward rather than outward channels, toward a fuller appreciation for his legacy.

In 1882 Mark Twain returned to the river of his childhood, determined to write the definitive travel book on the Mississippi. *Life on the Mississippi* is no ordinary guided tour, for every page is expressive of the structure, style and high humour that is the very essence of Twain the writer. Spiced with Twain's pungent observations and commentaries on the culture and society of the great river valley, the book is a wonderful collection of lively anecdotes, tall tales and character sketches; historical facts and information; and reminiscences of the author's boyhood and experiences as a steamboat pilot. *Life on the Mississippi*, in its composition and substance, is intricately related to *The Adventures of Huckleberry Finn*. In his introduction, James M. Cox suggests that in writing this travelogue Twain discovered the truths that form the heart of the odyssey depicted in his masterpiece, *Huckleberry Finn*. Revered as one of America's greatest humorists and author of the "Great American Novel" (The Adventures of Huckleberry Finn), the words of Samuel Langhorne Clemens—more commonly known as Mark Twain—resonate as strongly today as they did when he wrote them more than a century ago. A close friend of Nikola Tesla and heralded by William Faulkner as "the father of American literature," Twain's wit, wisdom, and influence continues through the present day. Printer, typesetter, steamboat pilot, miner, reporter, journalist, author, inventor, humorist, investor, publisher, lecturer—Mark Twain was known as many things during his lifetime and has had at least as many titles thrust upon him since this death, but perhaps what he is best known for is being a source of good old-fashioned common sense. Whatever the topic—whether science and technology, life and love, history and culture, travel and exploration, civil rights and human rights, labor and politics, or ethics and religion—Twain had much to say and many ways to say it. Here, culled from his greatest novels, speeches, letters, conversations, and lectures is the best wisdom and advice—humorous, sardonic, and insightful as always.

From the Introduction: It should always be with some misgivings that an editor presents to the public materials which an author has discarded. By returning the materials to his files, the author has voted against publication. By resurrecting them, the editor risks exposing the author to the adverse criticism which he wished to avoid. But, at the same time, the resurrection serves a valuable purpose by making available indispensable evidence to be used by those seeking to understand the creative process. It is because they serve such a purpose that the texts published in this volume have been salvaged from Mark Twain's files. Indeed, they are doubly valuable because they aid in dispelling a myth about his own creative process which Twain himself did much to establish. In several instances Twain gave the impression that for him plotting a novel was a rather simple affair. . . . But in actuality, as the texts published in this volume illustrate, he experienced much more trouble than this statement would suggest in delimiting his fictional world, establishing its nature, and maintaining control over the characters placed therein.

The humorist reflects on his scuffling years -- silver mining in Nevada, working at a Virginia City newspaper, down and out in San Francisco, reporting for a newspaper from Hawaii, and more.
